WICHTIGE INFORMATION

Zum 1. Januar 2014 wurde die Umsatzsteuer für Sammlungsobjekte wie Briefmarken und Münzen von 7% auf 19% erhöht.

Deshalb bieten wir in unseren Auktionen inzwischen den überwiegenden Teil der Lose differenzbesteuert an. Bei diesen Loses wird weder für den Zuschlag noch für das Aufgeld Umsatzsteuer gesondert berechnet, da wir als Auktionshaus die anfallende Umsatzsteuer bei Lieferungen in Deutschland und innerhalb der EU tragen.

Seit der 29. Auktion können wir nun auch viele Lose differenzbesteuert anbieten, für die zuvor 19 % Umsatzsteuer erhoben werden musste. Hierbei handelt es sich um Lose, die in die EU eingeführt worden sind. Die mit dem Import verbundenen Kosten in Höhe von 7 % des Zuschlags müssen wir an Sie weiterberechnen (= Importspesen, die Bestandteil des Kauf-

preises sind). Diese Importspesen werden auch dann berechnet, wenn das gekaufte Los exportiert wird. Alle Lose dieser Art sind im Katalog mit einem Plus hinter der Losnummer (Beispiel: 4839 +) gekennzeichnet.

Nur Lose mit einem Punkt hinter der Losnummer (Beispiel: 3412 •) unterliegen der Regelbesteuerung von derzeit 19 %, so dass wir hier Umsatzsteuer für Zuschlag und Aufgeld berechnen müssen (entfällt bei Export).

Bei allen Loses ohne Kennzeichnung (• oder +) werden nur Zuschlag und Aufgeld berechnet – keine Umsatzsteuer oder Importspesen!

Welche Auswirkungen dies für Sie als Bieter hat, wird an den folgenden Beispielen für ein Los, das mit 1.000,- € zugeschlagen wird, deutlich:

BIS 31.12.2013		ZURZEIT					
Alle Lose regelbesteuert 7 %		Lose ohne Markierung differenzbesteuert		Lose mit + differenzbesteuert mit Importspesen 7 %		Nur bei Loses mit • regelbesteuert 19 %	
Zuschlg	1.000,00 €	Zuschlg	1.000,00 €	Zuschlg	1.000,00 €	Zuschlg	1.000,00 €
20 % Aufgeld	200,00 €	23,8 % Aufgeld	238,00 €	23,8 % Aufgeld	238,00 €	23,8 % Aufgeld	238,00 €
				7 % Import	70,00 €		
	1.200,00 €		1.238,00 €		1.308,00 €		1.238,00 €
7 % USt.	84,00 €					19 % USt.	235,22 €
<u>SUMME</u>	<u>1.284,00 €</u>	<u>SUMME</u>	<u>1.238,00 €</u>	<u>SUMME</u>	<u>1.308,00 €</u>	<u>SUMME</u>	<u>1.473,22 €</u>

Hieraus wird ersichtlich, dass Sie die mit Differenzbesteuerung angebotenen Lose rund 3,6 % günstiger erwerben können als vor dem 1.1.2014.

Für alle Lose, die in ein umsatzsteuerliches Drittland ausgeführt werden, wird weiterhin keine Umsatzsteuer berechnet.

IMPORTANT INFORMATION – FOR EC CUSTOMERS MAINLY

Since January 1st, 2014 the German VAT for collectibles like stamps and coins was increased from 7% to 19%.

Therefore, we now offer the majority of our lots under margin system. No tax at all will be charged on top neither on the hammer price nor on the buyer's premium for these lots and the Christoph Gärtner Auction Company pays and transfers the VAT.

Starting with the 29th auction we now can offer many lots under margin system for which we previously had to charge 19 % VAT. These are lots which have been imported into the EC. The costs of the import amount 7 % of the hammer price

which we have to charge you (= import expenses, part of the buying price). The import expenses will also be invoiced, if the lots are exported. All lots of this kind are marked by a plus after the lot number (ie 4839 +).

Lots marked in the catalogue by a point after the lot number (ie 3412 •) will be charged under normal VAT rate of 19 %, if the lot is not exported (not charged when exported).

For all lots without any mark (• or +) only hammer price and buyer's premium will be charged - no VAT or import expenses will be added!

By implementation of the margin system purchasing of relevant lots will be 3,6% cheaper now for EC buyers.

Lots purchased in order to be carried out to Non-EC-Countries are exempted from taxation as before.

BITTE BEACHTEN

Erklärung zu Abbildungen und Losbeschreibungen

Sollte es in unseren Print- oder Online-Katalogen bei einzelnen Losen zu Abweichungen zwischen Bild und Losbeschreibung kommen (z.B. unterschiedliche Ausrufspreise oder die Losbeschreibung passt nicht zur Abbildung), so gelten die Angaben der Losbeschreibung als verbindlich.

Die Katalogwertangaben in EURO (€) beziehen sich, sofern nicht anders angegeben, auf den jeweils aktuellen MICHEL-Katalog zum Zeitpunkt der Katalogbearbeitung. Ausländische Spezialwerke sind gegebenenfalls zitiert.

Sammlungslose werden grundsätzlich „wie besehen“ versteigert. Die Beschreibungen erfolgten nach bestem Wissen und Gewissen. Reklamationen sind bei Sammlungslosen ausgeschlossen.

PLEASE NOTICE

Explanation to pictures and lot descriptions

Given that in our print- and online-catalogues lot-numbers have differences between the image and lot description (f.e. starting prices are different or the picture does not fit with the corresponding description), the data of the lot description has to be regarded as valid.

The catalogue value stated in EURO (€) is based, unless otherwise stated, on the actual MICHEL catalogue at the time of our catalogue compilation. In some cases, specialised foreign catalogues may also be quoted.

Collection lots are "sold as seen". The lot descriptions are made in the best will and conscience and do not guarantee any characteristics. Collections lots are excluded from complaints.

Abkürzungen bei der Losbeschreibung

Bei den Losbeschreibungen vor der Losnummer verwenden wir folgende Abkürzungen:

P = **PRINT** / diese Lose sind im Katalog abgebildet
W = **WEB** / Abbildungen zu diesen Sammlungen sind online unter www.auktionen-gaertner.de vorhanden, diese Lose sind nicht im Katalog abgebildet

Die Buchstaben in Klammern am Ende der Beschreibung weisen auf die Art der Aufbewahrung des Loses hin:

A = **Album** K = **Karton** M = **Mappe**
S = **Schachtel** T = **Tasche**

Abbreviations at the lot description

At the lot numbers in the lot description we use following abbreviations:

P = **PRINT** / these lots are pictured in the catalogue
W = **WEB** / you will find pictures of these collections online on: www.auktionen-gaertner.de

The different letters you will find in brackets after the description are indicating the size and packing of the lot:

A = **binder** K = **big box** M = **folder**
S = **box** T = **envelope**

Abkürzungen bei den Abbildungen

Bei den Abbildungen vor der Losnummer verwenden wir folgende Abkürzung:

ex. = **EXEMPLARISCH** / bei diesen Losen wird nur ein Teil des Loses abgebildet, die restlichen Bilder finden Sie online

Abbreviations at the pictures

At lot numbers below the pictures we use following abbreviation:

ex. = **EXEMPLARILY** / these lots are not completely pictured, you will find more pictures online

P 29123	1860's/1980's (ca). This is one man's lifetime holding, an opportunity not to be missed representing a substantial album with 1000s of stamps with much substance. However the best part is probably the material waiting to be processed including 1000s of stamps as well as postal history and postmark studies from the 19th century onwards, crammed in two very well filled volumes, making 3 excellent collections/study groups. Further highlights include early large tigers including on cover, dozens of 1880s handstamped issues, 1891/92 1r gray blue unused part-sheet, etc. Also multiples of the 1893 unissued registrations, all the way through to 1932 inauguration issues and imperf sheets of 12, etc. An opportunity not to be missed, so much here to research. With many ppc of pioneer aviation in Japan (inc. pre-WWI foreigners like Art Smith, Katherine Stinson etc.) / early WW-I aviation pics in France, interesting senders from France or Japan etc. An unique find. Shigeno K. was the 3rd son of Baron SHIGENO Kiyoharu (d. 1896), a Lt-General in the Imperial Japanese Army. After the death of his wife, in July 1910 he left Japan for France to study music. In Paris he acquired international pilot licence No. 744 on 26 January, 1912. The same year he designed a single-seat tractor biplane and named this aeroplane Wakadori-go (Young Bird, after his late wife, Wakako. The same name was given to his fighter plane Spad-VII in 1917). First flight on 26 April, 1912. Summoned by his family to return to Japan and left France in May 1912 with his dismantled aeroplane. Reassembled, it set a new civil aeroplane record in Japan on 20 April, 1913, reaching 300m (984ft) with a flight of 45min After becoming a professor at Japan's military aviation school, Shigeno returned to France in April 1914 to buy a new aircraft. When WWI broke out in August, under orders from his superiors, on 20 December 1914 he joined the foreign legion, where he was admitted with the rank of captain. Obtained military pilot patent No. 834, April 19, 1915 in Avord and was assigned, on May 20 to the bombing squadron V 24. On August 23, 1915, on an observation mission north of Reims over the German lines he was copiously fired by enemy DCA, admired by French soldiers who counted 562 Shells fired against him. This lead to an honorary report in the french armies daily "La Croix" Sept. 30 and having him appointed "Knight of the Legion of Honor Oct. 30". Absent due to health problems Sept./Dec., returned to his squadron Dec. 21 1915 to May 22, 1916. By June 1 transferred to the N.12 fighter squadron, despite aged 34, one of the oldest fighter pilots. Then finally assigned Sept. 19, 1916 to N.26 squadron under command of Georges Guynemer (1891-1917), later known as "the storks". His personal symbol, a so-called "Japanese stork", was adopted by the squadron to become the collective emblem. Shigeno had two confirmed victories, one in co-work with Guynemer March 17, 1917 and six unconfirmed. His last combat flight was on August 9, 1917. His health problems forced him to a new hospitalization on August 13, 1917 which spread over the armistice. In the hospital he met a 22-year-old war widow, Ms Jeanne Aimard. He and Jeanne married Oct. 18, 1919. Returned to his squadron, SPA 26, on February 23rd, 1919 and was demobilized March 11, 1919. In January 1920, Shigeno and wife returned to Japan with their daughter. He had started a career in civil aviation but died in Osaka in October 1924. His widow could not make a living in Japan and returned to France, with the two surviving sons. (S)	Ak/ GA/ ✉	5.000,-

RAKETENPOST

- P 32453** Friedrich Schmiedl was born on 14.05.1902 in Schwertberg in Upper Austria. At the age of five, he launched his first rockets at a garden party and has been fascinated by rockets ever since. He graduated from elementary school, the k. k. Staatsgymnasium and the building trade school in Salzburg. When Russians besieged Premysl in World War I, he proposed in vain to the Imperial and Royal Army High Command the use of post rockets instead of small unreliable balloons. In numerous rocket launches on the Gigerwiese on the Mönchsberg, the student determined the most favourable launch angles. In 1918 Schmiedl tested a rocket helicopter, in 1919 on the Geiereck at Untersberg the bundling and gradual ignition of fireworks. In 1921 Schmiedl began studying chemistry, natural sciences and philosophy at both the Technical University and the University of Graz. Two of his professors received the Nobel Prize. Together with Viktor Hess, the discoverer of space radiation, he investigated the changes in the genetic material of plants both by irradiation and by accelerations up to six times the acceleration due to gravity. The chemist Fritz Pregl studied metabolism, hormones and enzymes. In 1922 Schmiedl built a vacuum test stand to show critics that the recoil principle also works in a vacuum. He corresponded with Albert Einstein, Hermann Oberth, Konstantin Tsiolkovsky, Willy Ley, Auguste Piccard, Guido von Pirquet and many others. The Austrian rocket pioneer regarded the supply of mail to remote mountain farms and refuges as the first step that could be financed by a lone fighter. After his studies, the civil engineer decided to live as a freelance researcher and inventor in Graz. He earned his living by examining concrete. At the end of May 1928, Schmiedl raised the FS 1 stratospheric balloon from a meadow in the Murauen meadows of Graz to an altitude of 18,800 metres. It was loaded with meters and the first stratospheric mail. At a height of 16 km an adapted barometer box ignited a 15 cm long powder rocket with a miniature letter. She hasn't been found. The gondola with the envelopes landed in Hungary and was returned to its designer two weeks after the ascent. Schmiedl had drawn the inappropriate conclusion from bends in meteorite orbits that the outer atmosphere of the earth would not turn with the earth and therefore expected the balloon to drift westwards.

Schmiedl often hiked with rockets, cameras and other equipment to the Schöckl Mountain in Graz, where he saw an ideal rocket launch site. He made rockets, balloons, envelopes and many vignettes himself. Without a crane, Schmiedl could build rockets weighing up to 20 kg. He used sodium chlorate and sodium nitrate as fuel in a ratio between 1:6 and 1:3 and made them insensitive to pressure and heat by placing the particles in a rubber solution. Silk paper chips and the use of two types of powder prevented explosions. He lined the coat with asbestos so that the powder would not touch any metal. On 03.07.1928 Schmiedl noted on the unstamped folding letters flown with the test rocket V 2: „The final goal of my rocket flight tests are rocket mail and space flight“.

The only one who crashed on fire was the V6 test rocket when he tried to direct it back to the launch site with a shortwave remote control.

On 02.02.1931 Schmiedl V 7 shot from Schöckl to Radegund with measuring instruments and 102 envelopes. It was equipped with remote control and gyro stabilizer.

Longitudinal grooves on the outer casing prevented the recording rocket fired on 21.04.1931 from twisting. After the burner was burned, the system was operated with small cameras and spectrographs for UV measurement in order to detect the sun outside the smoke trail. Originally it was to become the 3rd stage of a „registration space rocket“ consisting of 31 tested 20 kg rockets.

P 32453

On 09.09.1931 Schmiedl R 1 - the first rocket with mail from interested parties - shot from Hochtrötsch to Semriach. To at least partially finance his research, Schmiedl created the first rocket mail stamps, which he sold for 10 pennies. Before the start, Austrian Post took 84 letters and cards from abroad to Schmiedl. Some beetles and butterflies flew through the air in a padded can.

On 23.07.1932 Schmiedl carried three precision watches with the V 13 test rocket - a fourth remained on the ground - in order to symbolically refute Einstein's theory of relativity. Schmiedl sent a remote-controlled missile after this mail rocket, which he called a „flying buoy“ because of its appearance. With this, the convinced pacifist tested the first anti-missile missile.

As gravity and air resistance decrease at higher altitudes, space rockets require the greatest shearing force during launch. Schmiedl therefore developed funnel-shaped and conical rockets for the intended crossing of the English Channel and for space flights. He produced 50 cm high airworthy models of both, with which he carried 6 postcards each on 08.11.1932.

Among the approximately 10,000 rocket launches carried out by Schmiedl are the first night flight of a self-guided rocket - the V 8 of 28.10.1931, and the first two underwater rocket launches UK 1 and UK 2 of 29.12.1933. At UK 1, the slow underwater incendiary charge brought the rocket to the surface of the Murtal reservoir. The upper rocket stage ignited but did not stay on course and led to an early landing.

The deserts of Africa appeared to be particularly suitable for the launch and landing of space rockets. The rotation of the earth near the equator reduces the fuel consumption for reaching the 1st and 2nd cosmic speed. Large uninhabited areas allow for large-scale barriers. And the price of the land is extremely low. Schmiedl launched 5 „desert rockets“ with the fuel, which can be stored and is insensitive to heat and cold. The few maps flown with them are addressed to fictitious inhabitants of various oases and were carried on first flights from Sabena and Air Afrique.

On 21.12.1935 Schmiedl fired two remote-controlled liquid rockets from the pulpit to Gösting near Graz. Fuel was liquid oxygen and ethyl alcohol. In contrast to N6, N7 was equipped with three solid rockets as jump starters.

This extraordinary collection consists of 169 flown documents:

- 156 documents were transported with 44 of the 45 rockets built by Schmiedl, which carried mail between 1928 and 1935.
- 6 documents were carried by the 1st Stratosphere Mail „Höhenballon FS-1“
- 7 documents were carried with the lifting kite D1. This is the first mail to be carried on a jet plane.

Friedrich Schmiedl wurde am 14.05.1902 in Schwertberg in Oberösterreich geboren. Mit fünf startete er bei einem Gartenfest seine ersten Raketen und war seitdem von Raketen fasziniert. Er absolvierte die Volksschule, das k. k. Staatsgymnasium und das Baufach der Gewerbeschule in Salzburg. Als Russen im 1. Weltkrieg Premysl belagerten, schlug er vergeblich dem k. k. Armeeoberkommando den Einsatz von Postraketen anstelle von kleinen unzuverlässigen Ballons vor. In zahlreichen Raketenstarts auf der Gigerwiese am Mönchsberg ermittelte der Schüler die günstigsten Startwinkel. 1918 erprobte Schmiedl einen Raketenhubschrauber, 1919 auf dem Geiereck am Untersberg das Bündeln und stufenweise Zünden von Feuerwerksraketen. 1921 begann Schmiedl ein Studium der Fächer Chemie, Naturwissenschaften und Philosophie sowohl an der Technischen Hochschule als auch an der Universität Graz. Zwei seiner Professoren erhielten den Nobelpreis. Mit dem Entdecker der Weltraumstrahlung Viktor Hess untersuchte er die Änderungen der Erbmasse von Pflanzen sowohl durch Bestrahlung als auch durch Beschleunigungen bis zur 6-fachen Erdbeschleunigung. Der Chemiker Fritz Pregl erforschte Stoffwechsel, Hormone und Enzyme. 1922 baute Schmiedl einen Vakuumprüfstand, um Kritikern zu zeigen, dass das Rückstoßprinzip auch im luftleeren Raum funktioniert. Er korrespondierte mit Albert Einstein, Hermann Oberth, Konstantin Ziolkowski, Willy Ley, Auguste Piccard, Guido von Pirquet und vielen anderen. Die Versorgung entlegener Berggehöfte und Schutzhütten mit Post sah der österreichische Raketenpionier als ersten, für einen Einzelkämpfer finanzierbaren Schritt an. Der Bauingenieur entschied sich nach seinem Studium für ein Leben als freier Forscher und Erfinder in Graz. Seinen Unterhalt verdiente er mit Betonuntersuchungen.

Ende Mai 1928 ließ Schmiedl von einer Wiese in den Grazer Murauen den Stratosphärenballon FS 1 in eine Höhe von 18.800 Meter aufsteigen. Er war mit Messgeräten und der ersten Stratosphärenpost beladen. In einer Höhe von 16 km zündete eine adaptierte Barometerdose eine 15 cm langen Pulverrakete mit einem Miniaturbrief. Sie wurde nicht gefunden. Die Gondel mit den Umschlägen landete in Ungarn und wurde seinem Konstrukteur zwei Wochen nach dem Aufstieg zurückgegeben. Aus Knicken in Meteoritenbahnen hatte Schmiedl den nicht zutreffenden Schluß gezogen, die äußere Erdatmosphäre würde sich nicht mit der Erde mitdrehen und daher ein Abdriften des Ballons nach Westen erwartet.

Oft wanderte Schmiedl mit Raketen, Kameras und sonstigen Ausrüstungsgegenständen auf den Grazer Hausberg Schöckl, in dem er einen idealen Raketenstartplatz sah. Raketen, Ballone, Umschläge und viele Vignetten fertigte er selbst. Ohne Kran konnte Schmiedl Raketen bis zu einem Gewicht von 20 kg bauen. Als Treibstoff verwendete er Natriumchlorat und Natriumnitrat in einem Verhältnis zwischen 1:6 und 1:3. Durch Einlegen der Partikel in eine Gummilösung machte er sie unempfindlich gegenüber Druck und Hitze. Seidenpapierschnitzel und der Einsatz zweier Pulversorten verhinderten Explosionen. Den Mantel kleidete er mit Asbest aus, damit das Pulver kein Metall berührte. Am 03.07.1928 vermerkte Schmiedl auf den mit der Versuchsrakete V 2 geflogenen unfrankierten Faltbriefen: „Endziel dieser meiner Raketenflugversuche sind Raketenpost und Weltraumflug“.

Als Einzige stürzte die Versuchsrakete V 6 brennend ab, als er mit einer Kurzwellen-Fernsteuerung versuchte, sie zurück zur Abschussstelle zu lenken.

Am 02.02.1931 schoss Schmiedl V 7 mit Messgeräten und 102 Umschlägen vom Schöckl nach Radegund. Sie war mit Fernsteuerung und Kreiselstabilisator ausgerüstet.

Längsrillen am Außenmantel verhinderten ein Verdrehen der am 21.04.1931 abgeschossenen Registrierrakete. Nach Brennschluss wurde der mit kleinen Kameras und Spektrographen zur UV-Messung ausgerüstete Spitzenteil abgesprengt, um die Sonne außerhalb vom Rauchschweif zu erfassen. Ursprünglich sollte sie die 3. Stufe einer aus 31 erprobten 20 kg schweren Raketen zusammengesetzten „Registrier-Raumrakete“ werden.

Am 09.09.1931 schoss Schmiedl R 1 - die erste Rakete mit Post von Interessenten - vom Hochtrötsch nach Semriach. Zur wenigstens teilweisen Finanzierung seiner Forschungen schuf Schmiedl die ersten Raketenpostmarken, die er um 10 Groschen verkaufte. Vor dem Start brachte die Post Schmiedl 84 auswärts aufgegebene Briefe und Karten zur Mitnahme. In einer ausgepolsterten Dose flogen einige Käfer und Schmetterlinge durch die Luft.

Am 23.07.1932 beförderte Schmiedl mit der Versuchsrakete V 13 drei Präzisionsuhren – eine 4. blieb am Boden - um die Relativitätstheorie Einsteins symbolisch zu widerlegen. Dieser Postrakete schickte Schmiedl eine ferngesteuerte Rakete hinterher, die er ihres Aussehens wegen „fliegende Tonne“ nannte. Damit erprobte der überzeugte Pazifist die erste Antiraketen-Rakete.

Da Schwerkraft und Luftwiderstand in größerer Höhe abnehmen, benötigen Weltraumraketen die größte Schubkraft beim Start. Deshalb entwickelte Schmiedl für die beabsichtigte Überquerung des Ärmelkanals und für Weltraumflüge Trichter- und Kegelförmige Raketen. Von beiden fertigte er 50 cm hohe flugtaugliche Modelle, mit denen er am 08.11.1932 je 6 Postkarten beförderte.

Zu den rund 10.000 von Schmiedl durchgeführten Raketenstarts zählen der erste Nachtflug einer Rakete mit Selbststeuerung - die V 8 vom 28.10.1931, und die beiden ersten Unterwasserraketenstarts UK 1 und UK 2 vom 29.12.1933. Bei UK 1 brachte der langsame Unterwasser-Brennsatz die Rakete an die Oberfläche des Murtalstausees. Die Oberstufe zündete, hielt aber nicht den Kurs und führte so zu einer vorzeitigen Landung.

Die Wüsten Afrikas erschienen Schmiedl besonders geeignet für Start und Landung von Weltraumraketen. Die Drehung der Erde vermindert in der Nähe des Äquators den Treibstoffverbrauch für das Erreichen der 1. und 2. kosmischen Geschwindigkeit. Große unbesiedelte Gebiete ermöglichen großräumige Absperungen. Und der Grundstückpreis ist äußerst niedrig. Mit dem lagerfähigen, gegenüber Hitze und Kälte unempfindlichen Treibstoff startete Schmiedl 5 „Wüstenraketen“. Die wenigen mit ihnen geflogenen Karten sind an fiktive Bewohner verschiedener Oasen adressiert und wurden mit Erstflügen von Sabena und Air Afrique befördert.

Am 21.12.1935 schoss Schmiedl zwei ferngesteuerte Flüssigkeitsraketen von der Kanzel nach Gösting bei Graz. Treibstoff waren flüssiger Sauerstoff und Ethylalkohol. Im Gegensatz zu N6 war N7 mit drei Feststoffraketen als Starthilfe ausgestattet.

Diese außergewöhnliche Sammlung besteht aus 169 geflogenen Belegen:

- 156 Belege wurden mit 44 der 45 von Schmiedl gebauten Raketen befördert, die zwischen 1928 und 1935 Post beförderten

- 6 Belege wurden mit der 1. Stratosphärenpost Höhenballon FS-1 befördert

- 7 Belege wurden mit dem Hubdrachen D1 gefördert. Das ist die erste mit einem Düsenflugzeug beförderte Post.

Die Juden in den dortigen Werkstätten fertigten Pelzmäntel und andere Winterbekleidung für die Wehrmacht. Die Materialien stammten aus der Winterpelz-Sammlung des WHW. Bei den Dokumenten handelt es sich um Korrespondenz mit dem Heeresbekleidungsamt, Schriftverkehr zwischen dem Judenrat und der Geschäftsführung, Bewerbungen, Beauftragungen, Sanktionierung bei Vergehen etc. Das letzte Dokument stammt vom 12.11.1942 - zu diesem Zeitpunkt war das Ghetto Neu Sandez bereits liquidiert. In der zahlreichen Literatur zur Geschichte des Ghetto's kommen diese Werkstätten nicht vor. HOCHINTERESSANTER FUNDUS zur Ergänzung der zeitgeschichtlichen Forschung über das Ghetto Neu Sandez! P 33070+	<p>From 1567. This FIP GOLD MEDAL collection introduces the spirit of GERMAN-AUSTRIAN ROMANTIC MUSIC in the 19th century within the flow of western music history followed by the intense study of the German-Austrian Romantic. In particular, the fields of 'Opera' and 'Music Drama', which are the characteristic genres of German-Austrian Roman music of the 19th century, will be explored in greater depth. This exhibit presents widest possible range of postal-philatelic materials including full varieties of music stamps ever recorded until now including normal variety and accidental variety as well. And the exhibitor tried to show as many varieties of philatelic materials as possible, trying to use minimum three or four different kinds of philatelic materials on each page. The main sections of this collection are: 1. The Spirit of German-Austrian Romantic Music. - 2. The Early period of German-Austrian Romantic Music. - 3. The Latter period of German-Austrian Romantic Music. - 4. German Romantic Operas in the 19th Century. - 5. The relationship with Romantic Composers in related Countries. - 6. The influence of German-Austrian Music. In this collection there are a lot of high class items: pre-philatelic letters, e.g. Medici family mail in 1567, original printer's proofs, for Händel, Bach and others, partly unique, many artist's signed die proofs (also different stages), several unique artist's drawings for stamp designs, eg. for Mahler, Schönberg, Lehar and others (and also some original sketches and preliminary sketches), quite a number of rare entire postcards, e.g. for Beethoven, Wagner and others, a good many stamp proofs (color, paper, etc) and stamp varieties, and much more worthwhile items. And everything is competently described and explained. An extraordinary collection on a very exciting topic... A must for every music lover! Ab 1567. Diese FIP-GOLDMEDAILLEN-Sammlung stellt den Geist der deutsch-österreichischen romanischen Musik im 19. Jahrhundert im Spannungsfeld der westlichen Musikgeschichte vor, gefolgt von einem intensiven Studium der deutsch-österreichischen Romantik. Insbesondere die Bereiche "Oper" und "Musiktheater", die die charakteristischen Genres der deutsch-österreichischen romantischen Musik des 19. Jahrhunderts sind, werden näher beleuchtet. Diese Sammlung präsentiert eine größtmögliche Auswahl an postalisch-philatelistischen Materialien, einschließlich einer Vielzahl von Musikmarken, die bisher verzeichnet wurden, inklusive diverser Variabilitäten. Und der Aussteller strebte an, so viele verschiedene philatelistische Materialien wie möglich zu zeigen, indem er versuchte, auf jeder Seite mindestens drei oder vier verschiedene Arten von philatelistischen Materialien zu präsentieren. Die Hauptgliederung dieser Sammlung ist: 1. Der Geist der deutsch-österreichischen romantischen Musik. - 2. Die Frühzeit der deutsch-österreichischen Romantik. - 3. Die Spätzeit der deutsch-österreichischen Romantik. - 4. Deutsche romantische Opern im 19. Jahrhundert. - 5. Die Beziehung zu romantischen Komponisten in verwandten Ländern, und 6. Der Einfluss der deutsch-österreichischen Musik. In dieser Sammlung gibt es sehr viele hochwertige items: etwa vor-philatelistische Briefe, z.B. Medici-Familienpost von 1567; Originalabzüge, für Händel, Bach und andere, teils als Unikate; viele vom Künstler signierte Matrizenabzüge (die proofs); mehrere einmalige Künstlerzeichnungen für Markendesigns (Unikate), z.B. für Mahler, Schönberg, Lehar und andere; eine ganze Reihe von seltenen Privat-Postkarten, z.B. für Beethoven, Wagner und andere; viele Marken-Druckproben (Farbe, Papier, etc.) und Abarten, und noch viele weitere wertvolle items. Und alles wird kompetent beschrieben und erklärt. Eine außergewöhnliche Sammlung zu einem sehr spannenden Thema... Ein Muss für jeden Musikliebhaber! (K)

Das Exponat wurde insgesamt 24mal ausgestellt, u.a. 4mal auf Weltausstellungen, 2mal auf Fepa-Ausstellungen und 9mal auf Rang 1, ferner mehrfach auf deutschen und europäischen Meisterschaften. Die Sammlung spannt den Bogen von den "Begründern der barocken Oper - Drei Länder setzen Maßstäbe", über die "Oper der Klassik - Schwerpunkt im deutschsprachigen Raum", das "Zeitalter der Romantik - Nationale Eigenheiten bilden sich heraus", über den "Verismo", der "neue Inhalte gibt", bis hin zum "Letzte(n) Aufbäumen der Romantiker in Mitteleuropa" und ermöglicht dem Betrachter auf eine wundersame philatelistisch-anspruchsvolle Weise einen klaren Blick auf das Sujet. Alle erwähnten Kapitel sind mit Marken, Besonderheiten und Belegen eindrucksvoll unterlegt; exemplarisch seien erwähnt: mehrere epreuve d'artiste/de luxe von Frankreich, III.Reich Probedruck der Mozart-Marke in schwarz als Einzelabzug, mehrere Danzig-Freistempeler "Waldoper-Festspiele", auch auf Zeppelinbrief der 3. Südamerikafahrt 1933 !, Österreich Beethoven-Marke 1922 als Probedruck-Einzelabzug, 4 R-Zettel "Oberon" Neusüdwaales (benannt nach der Weber-Oper), davon 2 in rot (nach Angaben nur 5 Stück bekannt), 26 Privatganzsachen zum Thema (Dt.Reich, Danzig, Bayern, All.Bes. und Italien - hier mit "La Maschere" Auflage 200 Stück!), III.Reich Wagner-Satz auf Brief sowie das MH, Brief an Guiseppe Verdi mit Absender-Einprägung "Stabilimento Nazionale Musicale Tito di Gio Ricorde Milano", Frankreich Markenheftchen 1928 "Marthe Nespoulous", Tschechoslowakei mit 7 Essays der Smetana-Ausgabe, Berlin mit Ankündigungskarton der Bundesdruckerei zur Richard-Strauß-Marke 1954 und vieles mehr! Eine beeindruckende Dokumentation dieses Themas, mit viel Sachverstand und Leidenschaft über viele Jahre hinweg aufgebaut! P 33131	THE WORLD OF SKIING: Olympics 1924 Chamonix. The Founding of FIS on February 2, Gold Medal Winning Collection beautifully mounted & knowledgeably written up 127 album pages showing the different sides of skiing and its impact on sport and culture in the snow-covered part of the world. Skiing, together with skating, were the main sports that established the Olympic Winter Games, and although there have been strong conflicts between the IOC and the International Federations for the winter sports, skiing is today the undisputed most popular winter sport in the world, and the Olympic Winter Games have grown in popularity every fourth year. The World of Skiing covers the various skiing sports, from cross country to snowboard, and from ski touring to speed skiing. The collection also shows how skis have been used in war, and how skiing has grown to be a strong activity in international tourism. A truly wonderful collection, having been recognized at the highest level as one of the most important collections covering the theme of Skiing ever formed, 2008 Beijing Goldmedal with 92 points, best exhibit. 	<i>THE WORLD OF SKIING: Die Sammlung hat ihre Goldmedaille verdient. Sie ist wundervoll zusammengestellt und mit viel Liebe und Sachverstand beschrieben. 128 Seiten erzählen von verschiedenen Aspekten des Skisports und seinen Einflüssen auf Sport und Kultur im schneebedeckten Teil der Welt. The World of Skiing zeigt die verschiedenen Spielarten der Skisports von Langlauf über Snowboarden, von Tourenski zu Abfahrtslauf. Die Sammlung zeigt auch, wie Ski im Krieg eingesetzt wurden und wie Ski fahren zu einem wichtigen Zweig im internationalen Tourismus geworden ist. Eine wahrhaft wunderbare Sammlung, die auch auf höchster Ebene als eine der wichtigsten Sammlungen zum Thema Ski fahren, gewürdigt wurde. <p>P 34098+ 1913 (ca). Rare, perhaps unique, collection of 22 original photographs and cover (i.e. postally used rppc) of the Siemens-Schuckert airship the Schuette Lanz, an early German Zeppelin competitor and important WWI weapon. All the photos relate to trial flights of the Schuette Lanz, which sustained severe damage; all the photos show either the injured airship in its entirety, or portions in a crash, or closeups of the various damage. This museum-quality group is impossible to duplicate. The photos range in size from a few centimeters to 16x12cm. A few are private, original Real Photo Postcard (RPPC's) – one is canceled at Schneidemuehl July 16, 1913. (T)</p>	<div>2.000,-</div>

<p>34101+ 1917/1919. Unique, original group of photos from the WWI Zeppelin construction group, Kaiserliche Marinebauamt Oldenburg, which constructed the Marine Luftschiffhafen (Naval airship hangars) at Ahlhorn, Oldenburg, where Zeppelins were launched during the war, including for sorties over England. The hangars are shown under construction, in operation with several prime shots of early Zeppelin fighters (including an especially nice one of the L44 and a sister ship in the air together), and then after the explosion that ripped the place apart. There is a great shot of the Bauamt crew responsible for the hangars, a woman who apparently did great service for the wounded there, and a few shots at the end of architects/artists rendering of the some of the facilities, and then shots of the surrounding area of Ahlhorn. All are mounted on large, heavy card for exhibition (15x10.5 inches) and the actual photo sizes range in size from a little over postcard size, ca 15x9cm (6x3.5 inches) to medium-format, ca 21.5x14cm (8.5x5.5 inches). The Zeppelin shots are mostly the postcard sized, and the closeup scenes of the destruction are often substantially larger. I scanned all of these to scale so you can see how big they are relative to each other. There is a large scan of each of the better Zeppelin/hangar photos, and then they are shown on the pages so you can see how they are arranged. There are 22 photographs, 1 photograph of the artists rendering, and 2 original drawings. A museum quality grouping that can't be duplicated. (MS)</p>	<div>800,-</div>

Allgemeine Versteigerungsbedingungen

Durch die Abgabe von Geboten werden die nachfolgenden Geschäftsbedingungen des Versteigerers anerkannt.

Diese Geschäftsbedingungen gelten, sofern und soweit zwingendes Recht am Ort der Versteigerung keine anderslautenden Regelungen vorschreibt.

1. Die Versteigerung erfolgt öffentlich und freiwillig in eigenem Namen und für eigene Rechnung gegen sofortige Bezahlung in Euro. Devisen und Schecks werden zum Tageskurs der Bundesbank angenommen. Handel und Tausch sind im Auktionsaal nicht gestattet.

2. Die Steigerungssätze sind dem jeweils aktuellen Auktionsprogramm zu entnehmen und betragen 5 bis 10% des Ausrufwertes bzw. des angesteigerten Wertes. Der Zuschlag ergeht an den dreimaligsten Ausruf an den Meistbietenden. Der Versteigerer hat das Recht, ohne Angabe von Gründen Personen von der Auktion auszuschließen, den Zuschlag zu verweigern, Gebote abzulehnen, Lose zurückzuziehen, zu vereinigen, aufzuteilen, umzugruppieren, bei Unklarheiten oder Missverständnissen nochmals aufzurufen oder in begründeten Fällen unter dem Vorbehalt der Genehmigung des Einlieferers zuzuschlagen. Untergebote mit Vorbehalts-Zuschlägen bleiben für den Bieter vier Wochen verbindlich, sind aber für den Versteigerer freibleibend. Bei gleich hohen Geboten entscheidet die zeitliche Reihenfolge des Gebotseinganges, bei zeitgleichem Eingang das Los. Lose, die „gegen Gebot“ ausgerufen werden, bedingen ein Mindestgebot von 20,- Euro und werden zum Höchstgebot zugeschlagen.

3. An den Versteigerer übermittelte (schriftliche) Gebote werden streng interessewahrend nur in dem Umfange ausgeschöpft, der notwendig ist, um anderweitig vorliegende Gebote zu überbieten, werden jedoch ohne Gewähr ausgeführt.

4. Telefonische Bieter müssen mindestens den Ausruf bieten und eine schriftliche Bestätigung nachreichen. Im Falle einer Nichterreichbarkeit gilt das Mindestgebot als geboten. Bei Telefongeboten übernimmt der Versteigerer keine Gewähr für das Zustandekommen einer Verbindung.

5. Der Versteigerer erhält vom Käufer ein Aufgeld von 23,8% des Zuschlagspreises sowie 2,- Euro pro Los. Für Lose, die mit • gekennzeichnet sind, wird für den Zuschlagspreis und das Aufgeld die gesetzliche Umsatzsteuer erhoben. Lose ohne Kennzeichnung unterliegen der Differenzbesteuerung nach §25a UStG; es erfolgt kein gesonderter Umsatzsteuerausweis. Bei Los mit + (Plus) hinter der Losnummer handelt es sich ebenfalls um differenzbesteuerte Lose, jedoch werden zusätzlich die mit dem Import verbundenen Kosten in Höhe von 7% des Zuschlags (= Importspesen, die Bestandteil des Kaufpreises sind) an den Käufer weiterberechnet. Bei Zusendung der Ware werden Porto und Versicherungspauschale zuzüglich gesetzlicher Umsatzsteuer gesondert in Rechnung gestellt. Käufe, die in ein umsatzsteuerliches Drittland ausgeführt werden, sind von der Umsatzsteuer befreit. Steuern/Abgaben für die Einfuhr der Käufe im Zielland gehen zu Lasten des Käufers.

6. Mit dem Zuschlag kommt ein Kaufvertrag zwischen dem Versteigerer und dem Bieter zustande. Er verpflichtet den Käufer zur Abnahme und Bezahlung am Versteigerungsort. Wer für Dritte bietet, haftet selbstschuldnerisch neben diesen. Gleichzeitig geht mit der Zuschlagserteilung die Gefahr für nicht vom Versteigerer zu vertretende Verluste oder Beschädigungen auf den Käufer über. Das Eigentum an der versteigerten Sache wird erst nach vollständigem Zahlungseingang beim Versteigerer auf den Käufer übertragen. Schriftliche Bieter erhalten in aller Regel eine Vorausrechnung, die sofort fällig ist. Erst nach vollständiger Bezahlung der Rechnung besteht ein Anspruch auf Aushändigung der gekauften Lose.

7. Sind Lose vereinbarungsgemäß vom Versteigerer zu versenden, hat der Käufer dem Versteigerer zu Nachforschungszwecken spätestens zehn Wochen nach dem Ende der Auktion (bei Vorkasse: nach der Bezahlung der Ware) schriftlich mitzuteilen, falls die zu versendende Ware nicht oder nicht vollständig zugegangen ist.

8. Alle Beträge, welche 14 Tage nach der Versteigerung bzw. Zustellung der Auktionsrechnung nicht beim Versteigerer eingegangen sind, unterliegen einem Verzugszuschlag von 2%. Dazu werden Zinsen in Höhe von 1% pro Monat erhoben, es sei denn, der Käufer weist nach, dass ein geringerer oder kein Schaden entstanden ist. Im Übrigen kann der Versteigerer wahlweise Erfüllung oder nach Fristsetzung Schadenersatz wegen Nichterfüllung verlangen; der Schadenersatz kann dabei auch so berechnet werden, dass die Lose verkauft oder in einer neuen Auktion nochmals angeboten werden. Der säumige Käufer muss hierbei für den Mindererlös gegenüber der früheren Versteigerung und den damit verbundenen zusätzlichen Kosten einschließlich der Gebühren des Versteigerers aufkommen. Auf einen eventuellen Mehrerlös hat er jedoch keinen Anspruch.

9. Die zur Versteigerung kommenden Lose können vor der Auktion beichtigt und geprüft werden. Sie werden in dem Zustand versteigert, in dem sie sich bei der Auktion befinden. Die nach bestem Wissen und Gewissen vorgenommenen Katalogbeschreibungen sind keine zugesicherten Eigenschaften. Der Käufer kann den Versteigerer nicht wegen Sachmängeln in Anspruch nehmen, sofern dieser seiner obliegenden Sorgfaltspflicht nachgekommen ist. Sammlungen, Posten etc. sind von jeglicher Reklamation ausgeschlossen, ansonsten verpflichtet sich der Versteigerer jedoch, wegen begründeter Mängelrügen, die ihm bis spätestens vier Wochen nach Auktionsschluss angezeigt werden müssen, innerhalb der Verjährungsfrist von einem Jahr seine Gewährleistungsansprüche gegenüber dem Einlieferer geltend zu machen.

Im Rahmen von Reklamationen ist bei der Rücksendung an den Versteigerer die Original-Loskarte beizufügen. Die Lose müssen sich in unverändertem Zustand befinden. Dies betrifft auch das Entfernen von Falzen, das Wässern, sowie chemische Behandlungen. Lediglich das Anbringen von Prüfzeichen der Mitglieder eines anerkannten Prüferverbandes gilt nicht als Veränderung. Der Versteigerer kann verlangen, dass bei Reklamationen ein entsprechender schriftlicher Befund eines zuständigen Verbandprüfers eingeholt wird. Will der Käufer eine Prüfung vornehmen lassen, so ist dies dem Versteigerer vor der Auktion mitzuteilen. Die Reklamationsfrist verlängert sich entsprechend. Dies betrifft jedoch nicht die Verpflichtung zur sofortigen Bezahlung der Lose. Die Kosten einer Prüfung werden dem Käufer in Rechnung gestellt, wenn das Prüfergebnis mit der Losbeschreibung übereinstimmt oder der Käufer das Los trotz abweichendem Prüfungsergebnis erwirbt. Mängel, die bereits aus der Abbildung ersichtlich sind, berechtigen nicht zur Reklamation. Lose, bei denen Fehler beschrieben sind, können nicht wegen eventueller weiterer geringer Fehler zurückgewiesen werden. Im Falle erfolgreicher Inanspruchnahme des Einlieferers erstattet der Versteigerer den gezahlten Kaufpreis einschließlich Aufgeld zurück; ein darüber hinausgehender Anspruch ist ausgeschlossen. Der Versteigerer ist berechtigt, den Käufer mit allen Reklamationen an den Einlieferer zu verweisen. Durch die Abgabe eines Gebotes auf bereits von anerkannten Prüfern signierte oder attestierte Lose werden die vorliegenden Prüfzeichen oder Atteste als maßgeblich anerkannt. Werden Lose unter dem Vorbehalt der Gutachten anderer Prüfer geboten, so ist dies dem Versteigerer mit dem Gebot anzuzeigen.

Bezeichnungen wie „Pracht“, „Kabinett“, „Luxus“ etc. stellen die subjektive Einstellung des Versteigerers und in keinem Falle eine Beschaffenheitsangabe im kaufrechtlichen Sinne dar. Lose, die mit „feinst“ oder „fein“ beschrieben sind, können Fehler aufweisen. Stücke, deren Wert durch den Stempel bestimmt wird, können wegen anderer Qualitätsmängel nicht beanstandet werden.

10. Ansichtssendungen sind nur von Einzellosen möglich. Postfrische Marken sind von der Versendung ausgeschlossen. Die Lose sind innerhalb von 24 Stunden zurückzusenden, wobei die von uns gewählte Versendungsart anzuwenden ist. Gefahr und Kosten gehen zu vollen Lasten des Anforderers. Sollten die Lose am Auktionstag nicht vorliegen, so werden sie eine Steigerungsstufe über dem nächsthöheren Gebot, mindestens jedoch zum Ausruf, dem Anforderer zugeschlagen.

11. Erfüllungsort ist Bietigheim-Bissingen. Das gilt auch, wenn wir die Ware ausnahmsweise an einem anderen Ort übergeben oder von einem anderen Ort aus versenden. Gerichtsstand für den vollkaufmännischen Verkehr ist Ludwigsburg. Es gilt ausschließlich deutsches Recht. Kommen Kaufverträge durch Versteigerung in einem Land außerhalb der Bundesrepublik Deutschland zustande, findet bei Verbrauchern deutsches Recht nur Anwendung, soweit hierdurch der durch zwingende Bestimmungen des Rechts des Staats des gewöhnlichen Aufenthalts des Verbrauchers gewährte Schutz nicht entzogen wird (Günstigkeitsprinzip).

12. Sollten eine oder mehrere der vorstehenden Bedingungen ganz oder teilweise unwirksam sein oder werden, berührt dies nicht die Gültigkeit der übrigen Bedingungen. Es soll dann das gelten, was dem ursprünglich wirtschaftlich verfolgten Zweck entspricht oder ihm am nächsten kommt.

13. Vorstehende Bestimmungen gelten sinngemäß auch für den Nachverkauf und den freihändigen Verkauf.

General Auction Conditions

By the submission of bids the following General Auctions Conditions of the Auctioneer are recognized and accepted.

These Auction Conditions shall apply, unless binding law at the location of the auction stipulates divergent provisions.

1. The auction is voluntary and held in public in the name of the auctioneer on his own behalf for his own account against immediate payment in Euro. Foreign currency and cheques are accepted at the daily exchange rate of the German Federal Reserve. Trading and exchange are not allowed in the auction rooms.

2. Bidding increments are published in the actual Auction Manual and are from 5 to 10% of the starting price or the actual submitted bid price respectively. The lot is sold to the highest bidder after threefold call. The Auctioneer reserves the right to bar persons from the auction at his sole discretion, to refuse knocking a lot down or to withdraw, pool, recombine or divide lots, to call lots once more in case of equivocality or misunderstandings or to knock a lot down subject to consignor's approval. Bids below the starting price with a knockdown subject to consignor's approval are binding for the bidder for a period of four weeks but are non-binding for the auctioneer. In case of even bids the chronological order of their receipt is applicable; in case of simultaneous receipt of even bids the auctioneer decides by drawing lots.

3. Bids transmitted to the auctioneer (in written form) will be treated with confidence and will only be used to top the other previous bid. However the auctioneer cannot take responsibility for this procedure. Lots without a particular starting price require a minimum bid of 20,- Euro and will be knocked down to the highest bid.

4. Telephone bidders must offer at least the starting price and submit a written confirmation thereafter. In the event of unavailability of the bidder on the phone the minimum bidding price is valid. The auctioneer is not responsible for the setting up and/or persistence of the telephone connection.

5. The auctioneer receives a premium of 23.8% of the hammer price from the buyer plus 2.00 Euro per purchased lot. For all lots which are marked with • behind the lot number Value Added Tax (VAT) will be added to the hammer price and to the buyers premium. Lots without marking are sold under the margin system (§25a UStG); there will be no turnover tax statement. Lots marked with + are sold under the margin system as well but additional expenses for importing the items in the amount of 7% of the hammer price are charged (= Import Expenses, which are part of the total sales price). If shipment is requested by the buyer or becomes necessary, costs for postage, packing and insurance plus VAT will be charged separately. For purchases from abroad, which will be exported to a third country (non-EU), VAT will not be invoiced after receiving an evidence of exportation. Duty and/or other charges related to importing the purchases into the country of destination are on buyer's account.

6. The purchase contract between the auctioneer and the buyer is closed on the knockdown of the lot. Based on this contract the buyer is obliged to accept and pay for the goods at the point of sale. In case of bidding for a third party, the bidder is liable as a principal as well as the third party. At the moment of knockdown all risks concerning loss or damage of a purchased lot is the responsibility of the buyer. The ownership of the auctioned goods will only be transferred to the buyer when full payment has been effected. Bidders making written bids will in general receive a prepayment invoice, which is due for immediate payment. Only if the invoice has fully been paid, the buyer has the right to claim ownership of the purchased lots.

7. If it is agreed, that the auctioneer will ship the purchased lots, and they are not or not completely received within ten weeks after the end of the auction (in case of prepayment: after the payment of the goods) latest, the buyer has to inform the auctioneer in writing about this incident for purposes of investigation.

8. Outstanding debits, which have not been paid 14 days latest after the auction and/or receipt of the invoice, will be subject to a default charge of 2%. Furthermore 1% interest per month will be charged unless the buyer can provide evidence that only a lower or no damage has been caused. Furthermore it is in the auctioneer's sole discretion whether he insists on performance or on compensation due to non-fulfilment after a set period. Compensation will be calculated after the lots have been sold directly or on another auction to a third party. In this case the defaulter has to compensate the loss of the auctioneer resulting from a lower sales price and additional costs. The defaulter is not entitled to additional proceeds earned by the auctioneer when selling the lots to a third party.

9. The objects for auction may be viewed and inspected prior to the auction. They will be auctioned in the condition as they are at the time of auction. The catalogue descriptions were made in all conscience and do not warrant any characteristics. The buyer cannot hold the auctioneer liable for any faults provided that the auctioneer has not infringed his duty to take care. Collections, batches etc. are excluded from any complaint, apart from that the auctioneer is obliged to hold the consignor liable for any complaint, which is made by the buyer within a period of 4 weeks after the auction, within a limitation period of one year. Complaints concerning a lot must be sent to the auctioneer together with the original auction lot card. The lot must be presented in its unchanged condition. This applies to the removal of hinges, submersion in water as well as chemical treatment. Only the application of sign information by a member of an acknowledged auditor association will not be regarded as tampering. In the event of complaints the auctioneer can demand a written expertise of an acknowledged auditor. If the buyer intends to get an expertise, he will inform the auctioneer about it prior to the auction. The period for complaint will be prolonged respectively. However, this does not inflict the right of the auctioneer to be timely paid. Any appraisal fees will be charged to the buyer, if the result matches the lot description or if he acquires the lot in spite of dissent opinion. Any faults, which are obvious at the time of photography, are excluded from the right of complaint. If faults of a lot are described in the auction catalogue, this lot will not be rejected and returned by the buyer because of further smaller faults. In the event of a successful claiming of the consignor the auctioneer refunds the paid purchase price and buyer's premium; the buyer is not entitled to further claims. The auctioneer has the right to refer the buyer with all of his complaints to the consignor.

By bidding on lots, which were already signed or certified by acknowledged auditors, the buyer accepts these approval marks or certificates as decisive. If bids are placed with reservation of an appraisal of another auditor, the bidder will inform the auctioneer about this reservation when placing his bid. Descriptions such as „Pracht“, „Kabinett“, „Luxus“ etc. are a subjective opinion of the auctioneer and under no circumstance a statement in regard to warranted characteristics. Lots which bear the description „feinst“ or „fein“ may possibly have small faults. Objects having a value which is defined by their postmark are excluded from complaint of any other defects.

10. Only single lots can be shipped for viewing. They must be returned to the auctioneer within 24 hours, in doing so our mode of dispatch must be utilized. Any risks and costs are for the account of the requesting party. If these lots are not present in the auction house on the day of the auction, they will be knocked down in favour of the requesting party one increment above the highest bidding price but at least for the starting price.

11. Place of fulfilment is Bietigheim-Bissingen. This will also apply, if by way of exception we hand the goods over at another location or if we send the goods from another location. Place of jurisdiction for the full trading is Ludwigsburg. Only German law shall apply. If purchase contracts are closed by auction in a country outside Germany, for consumers German law shall only apply, as far as hereby the granted protection of the law of the state, in which the consumer has his main residence, is not withdrawn (favourability principle).

12. Should one or more of the conditions above or a part of them become invalid, the validity of the other conditions will remain unchanged. The invalid conditions shall be replaced by valid conditions, which conform to their economic purpose.

13. The conditions above shall also apply to after sale and private treaty.

So können Sie bieten

Submitting your bids

persönlich im Saal

Unsere internationalen Auktionen finden in unserem eigenen Auktionssaal statt. Um vor Ort bieten zu können, benötigen Sie eine Saalbieternummer – diese erhalten Sie an unserer Rezeption.

SENDEN SIE IHRE GEBOTE FRÜHZEITIG AB!

Ihre Gebote werden streng vertraulich und interessewährend bearbeitet. Dazu ist es notwendig, dass diese spätestens am Tage vor dem jeweiligen Versteigerungstag vorliegen!

Auskünfte über bereits vorliegende Gebote, insbesondere deren Höhe, werden generell nicht erteilt.

Falls Sie nicht persönlich an der Auktion teilnehmen können, gibt es mehrere Möglichkeiten uns Ihre Gebote mitzuteilen:

(Es gibt zusätzlich die Möglichkeit über einen professionellen Auktionsagenten zu bieten, auf der folgende Seite finden Sie die Kontaktdaten der Agenten unseres Vertrauens.)

online

Auf unserer Homepage **www.auktionen-gaertner.de** können Sie in nur wenigen Schritten ganz einfach und sicher Ihre Gebote abgeben. Die online abgegebenen Gebote werden mit derselben Sorgfalt behandelt wie schriftlich abgegebene Gebote.

Oder schicken Sie uns Ihre Gebote per E-Mail an:
info@auktionen-gaertner.de

schriftlich

Schriftliche Gebote geben Sie bitte auf dem beiliegenden Auktionsauftrag ab, und schicken uns diesen per Post oder Fax zu.

Als schriftlicher Bieter werden Sie vom Auktionator so vertreten, als wären Sie im Saal anwesend, d.h. vertraulich und interessewährend.

live per Telefon

Wenn Sie eine Teilnahme von zu Hause bevorzugen, bieten wir Ihnen unseren telefonischen Bieter-Service an. Telefonbieter sollten sich frühzeitig mit uns in Verbindung setzen.

Bitte beachten Sie, dass telefonische Gebote immer nur mit schriftlicher Bestätigung angenommen werden. Das Mindestgebot für Telefonbieter beträgt 300,- €. Untergebote werden von Telefonbietern grundsätzlich nicht akzeptiert.

Füllen Sie bitte das Feld Telefonbieter auf der Rückseite des Auktionsauftrages aus oder schreiben Sie uns alternativ eine E-Mail. Am Tag der Auktion rufen wir Sie rechtzeitig bevor das Los ausgerufen wird an. Bitte stellen Sie sicher, dass Sie an diesem Tag telefonisch erreichbar sind.

personally in the auction hall

Our international auctions are held in our own auction hall. To be able to bid at the auction, you will need a hall bidder number which you will receive at our reception desk.

PLEASE SUBMIT YOUR BIDS EARLY!

Your bids will be processed and handled confidentially. It is necessary for the bids to be submitted at least on the day prior to the day of auction!

In general, information concerning offers already submitted, especially their values will not be released.

If you are unable to attend the auction in person, you have several other possibilities to submit your bids to us:

(In addition you can bid through a professional auction agent. On the following page you will find the contact details of our trusted agents.)

online

Bids can be placed directly and secure in just several steps on **www.auktionen-gaertner.de**.
Your online bids will be treated in the same way and with the same accuracy as traditional written bids.

Alternatively, you can send us your bids by e-mail:
info@auktionen-gaertner.de

in written form

Written bids can be placed by mail or fax using the enclosed auction bid form.

As a written bidder, you will be represented by the auctioneer as if you are in the auction hall yourself, which means confidential and discreet.

live by telephone

If you prefer to take part from your home, we offer you a telephone bidding service. Telephone bidders should contact us in time.

Please note, that bids submitted by telephone require a written confirmation. The minimum starting price for telephone bidders is 300,- €. Underbids can not be accepted by telephone.

Please fill in in the field for telephone bidding on the back of the bid form or write us an e-mail. We will call you the day of the auction in sufficient time before your lot is due to be called. Please ensure that you can be reached on the auction day.

WICHTIGER HINWEIS FÜR UNSERE EU-PRIVATKUNDEN:

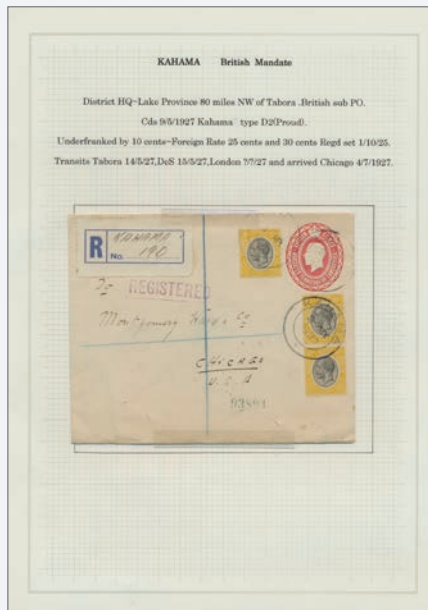

Nach Zuschlag eines Loses werden wir Sie für die Versandformalitäten anschreiben. Dies ist auf Grund der gesetzlichen EU-Versandhandelsregelung notwendig.

IMPORTANT NOTE FOR OUR EU-CUSTOMERS:

After knocking down and acceptance of your bid, we will contact you for the special shipping formalities. This is necessary because of EU legal regulations for distance sales.

NOTE IMPORTANTE POUR NOS CLIENTS PRIVÉS EUROPÉENS:

Après l'attribution d'un lot, nous vous écrivons pour les formalités d'expédition. Ceci est nécessaire en raison de dispositions légales communautaires sur la vente par correspondance.
