# THE POSTAL HISTORY & STAMPS OF CLASSIC FRANCE

1849-1870's

1849-1870's "The Postal History & Stamps of Classic France": Comprehensive and specialized collection of about 800 covers, more than 250 stamps, mint and used, including many most attractive and scarce multiples, accompanied by about 80 certificates, plus 32 handbooks and special catalogues like complete set (9 volumes) of Salles' "La Poste Maritime Française". This phantastic collection impresses with its extraordinary quality. It contains important covers with great frankings, from first issue including 1fr. vermillion to 1869 5fr. (three covers) and 1870 Bordeaux issue, with scarce combination frankings as pairs of Ceres 15c. and Napoleon 20c. on cover to the U.S.A., several multiples and multi-colour frankings, private perf. stamps on covers etc., also destinations worldwide including covers bearing France-Egypt or France-Argentina mixed frankings, mail from French Colonies and foreign post offices as from Danish West Indies, a group of stamps obliterated by numeral handstamps from foreign post offices, other scarce and/or interesting postmarks, and many special stamps and covers more.

A GREAT, VALUABLE AND RECOMMENDABLE COLLECTION.
