The C.G. logo is rendered in a large, dark blue, serif font. The letters are closely spaced, with the 'C' and 'G' being particularly prominent. The background of the entire page features a faint, light-colored image of a wooden gavel resting on its base, which is slightly out of focus.

SPECIAL AUCTION AUSTRALIA

23 February 2021

We are pleased to present and offer this extensive and varied compilation of Australian Philately in the appropriate setting with an "Australia" special catalog. The stamps of Australia, presented as key elements of the postal history of the Australian Confederation, the "Commonwealth of Australia", will be auctioned on 23rd February 2021 by online auction and if possible as a live room auction.

The turn from the 19th to the 20th century marks the transition of the postal systems of the Australian Territorial States to standardization under the general postal system of the Australian Confederation of States.

Lots of the transition period (from around 1900) including stamps, covers and postal stationeries from over 10 consignors are offered and sorted by the individual states and in chronological order, comprising many rare and interesting postal history items.

The first "general" stamps for Australia were issued in the year 1913, the beginning of a new era, presented by a vast array of philatelic "gems" from the age of King George V. & VI.

Definitive stamps starting with the "kangaroo" issues with numerous top values incl. many specialties, i.a. rare colours and watermarks, margin imprints, varieties, postmarks etc., associated with a remarkable range of covers, i.e. scarce frankings, valuable airmails, registered mail, postmarks from small towns, interesting destinations, official mail, field-post, P.O.W.-mail, censored mail and plenty of other useful material.

Furthermore included is an exceptionally comprehensive compilation of postal stationeries: post-cards, envelopes, registered-envelopes, letter-cards, wrappers, air letters etc. in various types, impressive amounts of pictorial stationeries, stamped-to-order stationeries of all kind including unique examples and new discoveries.

ARGENTINA

Dispatch by Ship
1870

Mailed through British Postal Agency

Great Britain Scott no. 54 on fragment of folded letter sheet, sent to Liverpool through British Postal Agency. Letter bears a "B32" grid cancel on front and a Dec. 14, 1870 Buenos Aires cancel on the reverse, used by the British postal agency. The cover was carried by the S.S. Oneida, which left Buenos Aires on December 15. Until January 29, 1873, foreign mail did not have to pay Argentinian postage, which is why the cover fragment is posted with a British stamp.

The "Oneida" was built in 1855 by Caird of Greenock. The ship had registered tonnage of 2,284 and was on the Royal Mail Steam Packet Co. fleet between 1858 and 1874. It was in the South American service between 1859 and 1871.

Carried by British Vessel via Southampton, But Bearing Routing Instruction for French Ship

Cover front franked with Scott no. 32. The cover was to be routed to the Messageries Maritimes-owned packet steamer, the Orenoque, which departed Buenos Aires on April 8, 1877. However, the cover bears an April 9 Buenos Aires post office cancel, explaining why it missed departing on the Orenoque. Since the departure of another French steamer wasn't scheduled for three more weeks, this cover was apparently routed to a British ship, probably the "Tagus," which carried the cover to Southampton. (The Tagus departed Buenos Aires on April 13, 1877). For this reason, the cover bears the British "Ship Letter" mark in red, a Southampton datestamp of May 7, and the Amb. Angl.-Calais transit mark. The cover bears the French-applied tampon, "12," but was also deficient postage and has a "T" handstamp and a "50" dues fee written on the front in blue. Transit time: 30 days.

The following year -- in 1878 -- Argentina joined the UPU and all outgoing mail had to pay Argentina's foreign mail rate.

ARGENTINA

Prestamp -- Carried by British Warship, "H.M.S. Lightening"

Stampless folded letter sheet dated internally March 12, 1810, sent from Buenos Aires to London with red "12(June) 1810" receiving mark on reverse. The cover bears a "1st" assessment on the obverse, broken down as follows: **Ship rate (4 pence), Master's gratuity (2 pence) and Inland rate (6 pence.)** Also on obverse is a "Ship Letter Portsmouth" receiving mark, applied in Portsmouth upon arrival. The cover is inscribed, "H.M.S. Lightening," a British warship on assignment in the River Plate. Transit time: 91 days.

Between the date when this letter was mailed and received, a revolution broke out in the La Plata area that eventually led to independence. On May 25, 1819, the viceregal government of Joseph Bonaparte was overthrown and a provisional governing council established.

c. 1861

Ship: Bella Margarita

Correo Fluvial

Buenos Aires No. 10 tied to commercial cover front, sent from Buenos Aires to Asuncion, Paraguay. Stamp is tied to cover by blue grid dumbmark and bears a handwritten inscription of the "Bella Margarita," a vessel that travelled the Parana and Paraguay Rivers. The cover bears an inscription reading, "with load [or shipment] of sample packages."

ARGENTINA

Dispatch by Ship
c. 1861

Ship: Brasil or Marques de Olinda

Correo Fluvial

Buenos Aires No.10 tied to cover front by blue, grid cancel sent to Asuncion, Paraguay around 1861. The cover is inscribed "Brasil o Marques de Olinda." The latter travelled the Buenos Aires to Corrientes river route during 1861 and 1862. Apparently, the ship travelled even farther north than Corrientes, making it as far as Asuncion.

ARGENTINA

Dispatch by Ship
1864

Ship: Pavon

Correo Fluvial

Argentina no. 7h on "correo fluvial" cover sent to San Pedro from Buenos Aires, cancelled February 7, 1864. Cover was carried by the "Pavon," an Argentinian vessel owned by Bernal y Carrega, which had contracts with the Uruguayan government to sail the Pavon up the Uruguay River four times monthly, but which also travelled the Parana River between Buenos Aires and Santa Fe.

ARGENTINA

Dispatch by Ship
1874

Ship: Correo

Correo Fluvial

Corrientes issue (Scott no. 7) cancelled in Corrientes city on December 10, 1874, sent to Mercedes, with steamer "Correo" inscribed on front. The "Correo" travelled the Uruguay River during the 1860s, but travelled up the Parana and Corrientes Rivers during the 1870s. This cover was apparently carried to Mercedes via these rivers.

ARGENTINA

Dispatch by Ship
1882

Ship: Patagonia

Cover franked with Scott nos. 18A and 38, bearing Buenos Aires "EXT.2" cancel of July 3, 1882. On the front is a Bordenix transit mark dated July 31, 1882. On the reverse is an Anvers arrival mark of August 2. Transit time: 28 days

The "Patagonia" was built in 1869 by J. Elder & Co. of Glasgow for the Pacific Steam Navigation Company. The ship weighed 2001 tons gross; 1303 tons net. The ship's port of registry was Liverpool.

ARGENTINA

Dispatch by Ship
1888

Ship: Nerthe

Higgins and Gage No. B2a, issue of 1878, and Scott No. 38 (x 2) showing 12 centavos foreign service rate in effect in 1888. Cover was cancelled on Sept. 22, 1888 and arrived in Spain on Oct. 28, 1888. Transit time: 37 days.

The "Nerthe" was built in 1874 for Messageries Maritimes by A. Stephen & Sons of Glasgow. The ship's gross weight was 3842 tons, and it flew the French flag. The Nerthe's port of registry was Marseilles.

<p>To ARGENTINA Dispatch by Ship 1868 Carried by British Packet</p>  <p>Cover sent from Havre to Buenos Aires via "Steamer Anglais." The cover bears a French boxed "P.P." in red, indicating the cover was paid to the port of address, a London transit mark "PAID" dated February 10, 1868 and a handwritten date of reception, March 16. Transit time: 34 days</p> <p>Although France was also operating a packet service to Buenos Aires, French mail was often via British packet, presumably to save transit time. For the mailer, the cost would be the same whether the mail was carried by British or French steamer.</p> <p>Carried to Argentina by the H.M.S. Onaida</p>	<p>To ARGENTINA Dispatch by Ship 1889 From Dutch East Indies to Argentina</p>   <p>Stamped envelope bearing Weltevreden, Dutch Indies cancel of January 16, 1889, sent registered to Buenos Aires, with registration number hand-written on reverse. The envelope was sent first to Europe, where it was placed on the Messageries Maritimes vessel, the "Nerte." On the reverse is a packet mark of the "Nerte" reading "Ligne J 24 Fev." applied aboard the vessel, which left Bordeaux on February 20, 1889. On the reverse is also a Buenos Aires "certificado" receiving mark of March 21. Transit time: 64 days</p>	<p>ARGENTINA Dispatch by Ship 1810 Prestamp -- Carried by H.M.S. Penelope</p>  <p>Stampless folded commercial letter sheet and cover dated internally July 18, 1810, sent from London to Buenos Aires. The front bears a circular handstamp reading "Paid Ship Letter - London - August 30, 1810." Inscribed on the front is "Penelope," the name of a British war ship-turned-troop ship. The cover was apparently received on January 3, 1811, according to internal docketing. Transit time: approximately 4 months</p> <p>H.M.S. Penelope was built in 1798 at Bursledon as a 36-gun warship. The ship was launched in November 1798 and within months captured the Spanish corvette, "Carmen," off Malaga. In 1807, Penelope was sent to the West Indies and in 1809 took part in the blockade of Guadalupe. In 1810, as this cover shows, the Penelope was sent to the River Plate, where an independence movement against Bonapartist rule broke out. In 1813, the Penelope was refitted as a troop ship. Two years later, on April 30, 1815, the Penelope was lost in a storm of snow on passage to Quebec, resulting in the loss of many lives.</p>

SMS "RENOWN"

Ein unter Meeresfreund wenig bekanntes, aber durch originellen und markanten Schiff der britisch preussischen und kaiserlich deutschen Marine war einmalig britische LINIENSCHIFF RENOWN.

SMS RENOWN war ein 20,3 Meter langer Dampfer in Portsmouth im England gebaut. Sie hatte eine Wasserverdrängung von 3 000 Tonnen, war als vollwertig als 300 Tonnen Dampfer gebaut und hatte zusätzlich eine Dampfmaschine, die auf zwei Schrauben wirkte. Auf zwei dazugehörigen Getriebesätze war die als viermal angeordnet, zum selbstständigen Betrieb der Schiffsfahrt im Fall der Dampfmaschinenarbeiten die Kohlenwerke durchgestellt, unter dem Deck der gepanzerten Schiffe gesehen. So hatte die RENOWN ein Einmaliges Design, der britischen Kriegsflotte, an keinen neuartigen Einbauten teilgenommen.

4. Political Zionism

4.1.2 "It is not a Fairy Tale"

Dr. Herzl was one of the greatest leaders of the Jewish people. His pamphlet "The Jewish State" was realized in the form of the State of Israel. In another book "The Jewish State", Dr. Herzl mentioned the well known phrase "If you will - it is not a fairy tale". Austria, Hungary & Israel issued jointly a special stamp designed by Ad Vanoojen, after a portrait by H. Stuck, (1903)

4. Political Zionism

4.5.1 The Ottoman period

Under the Turkish rule there were foreign post offices which functioned under the so called "Capitulations". They had agreements with the Jewish embassies to ensure their inland correspondence free of charge. The embassies in turn, sent their overseas mail through these foreign post offices. As Turkey entered W.W.I, all foreign post offices were closed.

4. Political Zionism

4.5.2 The Turkish Post

4. Political Zionism

4.5.6 Bikkheim Via Jerusalem

On Christmas 1899 the "International Picture Postcard" from Berlin, received a permit from Austrian authorities to use commemorative cachets "Bikkheim", 24.12.99. The permit was valid for next year's use too.

4. Political Zionism

4.7.2 Jewish immigration

Hitler's rise to power in 1933 increased the necessity of a most urgent immigration of Jews to the "Land of Israel". During the 19th Zionist congress in Lausanne (1935) it was decided to establish the "Alyot Ha'emir" - a foundation for youth immigration. The leader was the American born - Hershkita Seid, known later as "Mother of the Jewish youth".

5. Anti-Semitism and Holocaust

5.1.1 From power to horror

The rise of Hitler to the highest power in the German parliament (1932) was a black cloud for the Jews and their history. In Jan 30th 1933, he was appointed to Chancellor by Pres. Hindenburg. Hitler systematically suspended civil rights & liberties (arrested communists & Jews, accusing them of Parliament's burning). A year later were built the infamous concentration camps & extermination camps, on German soil and on all over occupied territories 1933/4.

5. Anti-Semitism and Holocaust

5.1.4 Dachau - the first concentration camp

The K.Z. Dachau near Munich was opened in March 1933, and was the first on German soil. (At first for political opponents). Throughout the years the camp held over 260,000 inmates, many of them Jews who were transferred there after the "Crystal-Nacht" events on Nov-9th, 1938. Dachau was one of the last camps liberated on April 29th 1945.

3.2 RICHARD WAGNERS OPERN DER ROMANTIK UND MYTHOLOGIE
 Wagner Richard (1813 - 1883)
 Kein anderer Komponist hat die Struktur der Oper stärker verändert als R. Wagner. Er leitete schon mit seinen frühen Werken eine Reform der Oper ein, wie sie bis zu Beginn des romantischen 19. Jahrhunderts unvorstellbar war. Sein Fortschritt war von Anfang an das Gesamtwerk, bei dem alle Sparten der Kunst unter dem Primat der Musik zusammenwirken sollten, um die ihm vorarbeitende Vollkommenheit des Dramas zu erreichen.

3.2 RICHARD WAGNERS OPERN DER ROMANTIK UND MYTHOLOGIE
 Bei „Tannhäuser und der Sängerkrieg auf Wartburg“ ist musikalisch die Hinwendung zum durchkomponierten Musikdrama trotz vieler artonischer und hochdramatischer Momente unverkennbar. In Tannhäusers Erzählung des letzten Aktes ist bereits eine Sprechsprache ausgebildet, wie er für die weiteren Werke Wagners typisch ist.

3.2 RICHARD WAGNERS OPERN DER ROMANTIK UND MYTHOLOGIE
 Als wesentliche Vorläufer zu „Tristan und Isolde“, verwarf Wagner Gottfried von Straburgs unvollständiges Epös „Tristan und Isolde“. Neben dieser Vorläufer beschäftigte er sich auch mit Schopenhauers Philosophie, die als Mittel der Erlösung die vollkommene Negation des Lebenswillens zur Maxime erhebt.

3.2 RICHARD WAGNERS OPERN DER ROMANTIK UND MYTHOLOGIE
 Mehr als in seinen anderen Werken kommt im „Ring des Nibelungen“, das politische Denken Wagners zum Ausdruck. Den sozialen Schichten verleihe er mit der Dreiteilung in die auf „wolkigen Höhen“ thronenden Göttern, die „auf der Erde Rücken“ lebenden Riesen und die „in der Erde Tiefe“ lagernden Nibelungen ein klares Profil.

Entstehung des Richard Wagner-Denkmals 1903 in Berlin. (DR PP 27 D1) Ein das Denkmal ranken sich die Figuren Kriemhild, Brünhild, Siegfried und Tannhäuser.

In der Waldoper von Zoppot wurden von 1909 - 1942 überwiegend Wagner-Opern gespielt. 1931 fand die Aufhebung vom „Ring des Nibelungen“ als Trilogie statt. (Danzig Francopost Bogenstock).

2.3 WOLFGANG AMADEUS MOZART - DAS UNFASSBARE GENIE
 Mozart Wolfgang Amadeus (1756 - 1791)
 Mozart ist zweifellos eine der populärsten Gestalten der Musikgeschichte. Er schuf Werke für sämtliche Gattungen: Kammermusik und Sinfonie, Kirchenmusik und Oper, sei es Opera seria, Opera buffa oder Singspiel. Sein Opernschaffen umfasst 22 Werke.

2.3 LUDWIG VAN BEETHOVEN UND SEIN „FIDELIO“
 Beethoven Ludwig von (1770 - 1827)
 Beethoven schrieb nur eine einzige Oper. Die Urfassung mit drei Akten wurde 1803 kein Erfolg. Auch die 2. Fassung mit dem Titel „Leonore oder die eheliche Treue“ in zwei Akten gefiel nicht. Erst 8 Jahre später, nachdem die Oper durch Textänderungen und Bewältigung von musikalischen Längen geändert wurde, hatte sie Erfolg.

2.3 LUDWIG VAN BEETHOVEN UND SEIN „FIDELIO“
 Seine Oper entstand nach dem französischen Drama „Leonore“ von Bouilly. Der Dichter war eng vertraut mit den Fragen der politischen Verfassung. Es ist daher sehr wahrscheinlich, dass sein Theaterstück auf eine tatsächliche Begebenheit zurückgeht. Beethoven war begeistert von der Grundidee: Befreiung der Unterdrückten und der Triumph der Menschlichkeit.

Vorzugdruck auf Japanpapier (63 Exemplare von 1807)

Das Symbol der gesprochenen Ketten auf dem Stempel dokumentiert den in der Oper gesungenen Freiheitskampf der „Leonore“ für ihren inhaftierten Mann.

WICHTIGE INFORMATION

Zum 1. Januar 2014 wurde die Umsatzsteuer für Sammlungsobjekte wie Briefmarken und Münzen von 7% auf 19% erhöht.

Deshalb bieten wir in unseren Auktionen inzwischen den überwiegenden Teil der Lose differenzbesteuer an. Bei diesen Losen wird weder für den Zuschlag noch für das Aufgeld Umsatzsteuer gesondert berechnet, da wir als Auktionshaus die anfallende Umsatzsteuer bei Lieferungen in Deutschland und innerhalb der EU tragen.

Seit der 29. Auktion können wir nun auch viele Lose differenzbesteuer anbieten, für die zuvor 19 % Umsatzsteuer erhoben werden musste. Hierbei handelt es sich um Lose, die in die EU eingeführt worden sind. Die mit dem Import verbundenen Kosten in Höhe von 7 % des Zuschlags müssen wir an Sie weiterberechnen (= Importspesen, die Bestandteil des Kauf-

preises sind). Diese Importspesen werden auch dann berechnet, wenn das gekaufte Los exportiert wird. Alle Lose dieser Art sind im Katalog mit einem Plus hinter der Losnummer (Beispiel: 4839 +) gekennzeichnet.

Nur Lose mit einem Punkt hinter der Losnummer (Beispiel: 3412 ●) unterliegen der Regelbesteuerung von derzeit 19 %, so dass wir hier Umsatzsteuer für Zuschlag und Aufgeld berechnen müssen (entfällt bei Export).

Bei allen Losen ohne Kennzeichnung (● oder +) werden nur Zuschlag und Aufgeld berechnet – keine Umsatzsteuer oder Importspesen!

Welche Auswirkungen dies für Sie als Bieter hat, wird an den folgenden Beispielen für ein Los, das mit 1.000,- € zugeschlagen wird, deutlich:

BIS 31.12.2013		ZURZEIT					
Alle Lose regelbesteuert 7 %		Lose ohne Markierung differenzbesteuer		Lose mit + differenzbesteuer mit Importspesen 7 %		Nur bei Losen mit ● regelbesteuert 19 %

Hieraus wird ersichtlich, dass Sie die mit Differenzbesteuerung angebotenen Lose rund 3,6 % günstiger erwerben können als vor dem 1.1.2014.

Für alle Lose, die in ein umsatzsteuerliches Drittland ausgeführt werden, wird weiterhin keine Umsatzsteuer berechnet.

IMPORTANT INFORMATION – FOR EC CUSTOMERS MAINLY

Since January 1st, 2014 the German VAT for collectibles like stamps and coins was increased from 7% to 19%.

Therefore, we now offer the majority of our lots under margin system. No tax at all will be charged on top neither on the hammer price nor on the buyer's premium for these lots and the Christoph Gärtner Auction Company pays and transfers the VAT.

Starting with the 29th auction we now can offer many lots under margin system for which we previously had to charge 19 % VAT. These are lots which have been imported into the EC. The costs of the import amount 7 % of the hammer price

which we have to charge you (= import expenses, part of the buying price). The import expenses will also be invoiced, if the lots are exported. All lots of this kind are marked by a plus after the lot number (ie 4839 +).

Lots marked in the catalogue by a point after the lot number (ie 3412 ●) will be charged under normal VAT rate of 19 %, if the lot is not exported (not charged when exported).

For all lots without any mark (● or +) only hammer price and buyer's premium will be charged - no VAT or import expenses will be added!

By implementation of the margin system purchasing of relevant lots will be 3,6% cheaper now for EC buyers.

Lots purchased in order to be carried out to Non-EC-Countries are exempted from taxation as before.

(1893-1923, another japanese in french airforce 1915/18), from foreign (4), unstamped from letters (ca. 36). With many ppc of pioneer aviation in Japan (inc. pre-WWI foreigners like Art Smith, Katherine Stinson etc.) / early WW-I aviation pics in France, interesting senders from France or Japan etc. An unique find. Shigeno K. was the 3rd son of Baron SHIGENO Kiyoharu (d. 1896), a Lt-General in the Imperial Japanese Army. After the death of his wife, in July 1910 he left Japan for France to study music. In Paris he acquired international pilot licence No. 744 on 26 January, 1912. The same year he designed a single-seat tractor biplane and named this aeroplane Wakadori-go (Young Bird, after his late wife, Wakako. The same name was given to his fighter plane Spad-VII in 1917). First flight on 26 April, 1912. Summoned by his family to return to Japan and left France in May 1912 with his dismantled aeroplane. Reassembled, it set a new civil aeroplane record in Japan on 20 April, 1913, reaching 300m (984ft) with a flight of 45min After becoming a professor at Japan's military aviation school, Shigeno returned to France in April 1914 to buy a new aircraft. When WWI broke out in August, under orders from his superiors, on 20 December 1914 he joined the foreign legion, where he was admitted with the rank of captain. Obtained military pilot patent No. 834, April 19, 1915 in Avord and was assigned, on May 20 to the bombing squadron V 24. On August 23, 1915, on an observation mission north of Reims over the German lines he was copiously fired by enemy DCA, admired by French soldiers who counted 562 Shells fired against him. This lead to an honorary report in the french armies daily "La Croix" Sept. 30 and having him appointed "Knight of the Legion of Honor Oct. 30". Absent due to health problems Sept./Dec., returned to his squadron Dec. 21 1915 to May 22, 1916. By June 1 transferred to the N.12 fighter squadron, despite aged 34, one of the oldest fighter pilots. Then finally assigned Sept. 19, 1916 to N.26 squadron under command of Georges Guynemer (1891-1917), later known as "the storks". His personal symbol, a so-called "Japanese stork", was adopted by the squadron to become the collective emblem. Shigeno had two confirmed victories, one in co-work with Guynemer March 17, 1917 and six unconfirmed. His last combat flight was on August 9, 1917. His health problems forced him to a new hospitalization on August 13, 1917 which spread over the armistice. In the hospital he met a 22-year-old war widow, Ms Jeanne Aimard. He and Jeanne married Oct. 18, 1919. Returned to his squadron, SPA 26, on February 23rd, 1919 and was demobilized March 11, 1919. In January 1920, Shigeno and wife returned to Japan with their daughter. He had started a career in civil aviation but died in Osaka in October 1924. His widow could not make a living in Japan and returned to France, with the two surviving sons. (S)	Ak/ GA/ ✉	2.500,-

W 17293	• 1916/1918, remarkable collection with ca.20 covers, cards and stationeries, mostly registered mail from a correspondence of Lt Col Thomas, a superior officer of the Anglo-Belgian Forces in Occupied German East Africa. Included are many uprated picture postcards along with various attractive frankings on covers, predominantly addressed to Great Britain, furthermore some local and domestic covers. The mail was sent from different places with postmarks from Kigoma, Mwanza, Tabora, Uvira as well as "B.P.C.V.K" daters and one postcard franked with British India 'I.E.F.' stamps tied by cds 'Base Office B'. A most unusual and obviously very rare circumstance is presented by the fact, that Lt Col Thomas was authorized and responsible to censor mail. Some of the postcards are signed with his own handwritten censoring - so he embodied both sender and censor in one person! Recommended and valuable anthology of colonial postal history! (M)	700,-

W 18037	1906/2011 (approx), All world. Interesting collection "CURIE: one family, two generations, three Nobel Prizes", consisting of 2 albums with a total of 426 items (covers cards, etc.) and 2 ring binders with stamps, souvenir sheets and miniature sheets, mostly mint, nh. The exhibit focuses on the Curie family and their life as researchers and discoverers. Marie Curie is probably the most famous physicist because of the Nobel Prizes she has received in physics and chemistry, and is also the only woman among the four multiple Nobel Prize winners to date. Irène, the older of the two Curie daughters, had inherited the scientific talent of both parents. Together with her husband Frédéric Joliot-Curie, she succeeded in discovering artificial radioactivity, for which the couple received the Nobel Prize in Chemistry. The content of the collection is thus determined on the one hand by the people involved - Marie, Pierre, Irène and Frédéric - and on the other by their discoveries - Polonium, Radium, artificial radioactivity, and their applications. This results in a casual division of the collection with its chaptering. In each of the (four) chapters, there is not only a large number of good items, but also a number of special items that excellently document what has been said: Insured letter from 1939 for 3,000 francs from Paris to Amsterdam with 11-times franking of the French special stamp showing Marie and Pierre Curie (Mi. #433), Military postcard from 1916 with red cachet "Centre radiologique" - one of the earliest ones about physics, Cover from Hungary (1988) with the special stamp "Frédéric Joliot", unissued because of his death in 1958, commemorating his ten-year presidency of the World Peace Council, the special stamp issue "100th birthday Marie Curie" (Mi. #1777/79) each as gutter pair (mint, slight creases in the gutter) and also as stamped partial sheets, the nice omnibus issue (21 values) for the 1938 Frensch stamp "40th anniversary of the discovery of radium" (Mi. #433), and further many interesting items, like proofs, imperforates, etc. (K)	☒/ GA/ **/ */ Δ	1.500,-

P 18163+ JUDAICA and HOLOCAUST - COLLECTION AND DOCUMENTATION OF POSTAL HISTORY. Very extensive, varied and substantial collection and at the same time historical documentation of Jewish history from the end of the 19th century to the founding years of the State of Israel. The focus is on an extremely rich and detailed presentation of covers and documents from the time of the Third Reich. Included are numerous covers from various concentration camps, e.g. Auschwitz, Birkenau, Buchenwald, Dachau, Mauthausen, Majdanek, Neuengamme, Ravensbrück, Sachsenhausen, Theresienstadt as well as concentration camp mail from smaller camps, including many different preprinted cards and envelopes, parcel cards, receipts of posting etc., ghetto Litzmannstadt with rare stamps of the ghetto post office, Theresienstadt with parcel post stamps and pay (POW), plus special stamps, ration coupons, passes, etc. Also included are field post covers, mail from Bohemia & Moravia and the Generalgouvernement, censored mail from various countries including France, Italy, Holland, the Baltic States, Hungary, etc., correspondence from Jewish emigrants, including from Palestine, as well as various documents such as passports, protective passports and other documents, plus some of the so-called "Yellow stars" which served as a symbol of exclusion. Another section of the collection deals with anti-Semitism, beginning with anti-Semitic motives and stereotypes on postcards from around 1900 and increasingly with the National Socialists' takeover of power in the Third Reich, including anti-Jewish propaganda on postcards, stickers, flyers and propaganda forgeries of foreign stamps. Postcards, covers and counterfeit stamps against National Socialism are included as a comparison. The period after the collapse of the Nazi regime in Germany and the resulting disclosure of the atrocities of the Holocaust is documented by covers in the context of the founding of the new state of Israel, including rare local postal issues, mail from camps of so-called "displaced persons" and other special items. In addition, there is a remarkable collection of autographs of historically important personalities, including Theodor Herzl, Golda Meir, Ben Gurion, Simon Peres, Yitzhak Rabin, etc., as well as artists such as Arthur Rubinstein and scientists, including two complete letters with the original signature of Albert Einstein. Other stamps from all over the world, some of them rare, complete the collection thematically. A very rarely offered collection in this richness and without restriction a recommended collector's item! (K)

1567/2000 (ca.). Deutschland/Europa/Übersee. Aus der berühmten FIP-Goldmedaillensammlung 'DIE DEUTSCHE-ÖSTERREICHISCHE ROMANTISCHE MUSIK', die den Geist der deutsch-österreichischen romantischen Musik im 19. Jahrhundert in den Fluss der westlichen Musikgeschichte einführt, gefolgt von der intensiven Beschäftigung mit der deutsch-österreichischen Romantik, stammt dieses sehr reichhaltige Los. Das Exponat präsentiert auf 64 Doppelseiten ein möglichst breites Spektrum an postalisch-philatelistischen Materialien, darunter die volle Vielfalt der bisher erfassten Musikmarken, sowohl die normale als auch die zufällige Vielfalt. Und der Aussteller hat sich bemüht, so viele Sorten von philatelistischen Materialien wie möglich zu zeigen, indem er versucht hat, auf jeder Seite mindestens drei oder vier verschiedene Arten von philatelistischen Materialien zu verwenden. Die Hauptabschnitte dieser Sammlung sind: 1. Der Geist der deutsch-österreichischen romantischen Musik. - 2. die frühe Periode der deutsch-österreichischen romantischen Musik. - 3. die späte Periode der deutsch-österreichischen romantischen Musik. - 4. Deutsche romantische Opern im 19. Jahrhundert. - 5. Die Beziehung zu romantischen Komponisten in verwandten Ländern. - 6. Der Einfluss der deutsch-österreichischen Musik. ALLGEMEINE VERSTEIGERUNGSBEDINGUNGEN

Durch die Abgabe von Geboten werden die nachfolgenden Geschäftsbedingungen des Versteigerers anerkannt.

Diese Geschäftsbedingungen gelten, sofern und soweit zwingendes Recht am Ort der Versteigerung keine anderslautenden Regelungen vorschreibt.

1. Die Versteigerung erfolgt öffentlich und freiwillig in eigenem Namen und für eigene Rechnung gegen sofortige Bezahlung in Euro. Devisen und Schecks werden zum Tageskurs der Bundesbank angenommen. Handel und Tausch sind im Auktionssaal nicht gestattet.

2. Die Steigerungssätze sind dem jeweils aktuellen Auktionsprogramm zu entnehmen und betragen 5 bis 10% des Ausrufwertes bzw. des angesteigerten Wertes. Der Zuschlag ergeht nach dreimaligem Ausruf an den Meistbietenden. Der Versteigerer hat das Recht, ohne Angabe von Gründen Personen von der Auktion auszuschließen, den Zuschlag zu verweigern, Gebote abzulehnen, Lose zurückzuziehen, zu vereinigen, aufzuteilen, umzugruppieren, bei Unklarheiten oder Missverständnissen nochmals aufzurufen oder in begründeten Fällen unter dem Vorbehalt der Genehmigung des Einlieferers zuzuschlagen. Untergebote mit Vorbehalts-Zuschlägen bleiben für den Bieter vier Wochen verbindlich, sind aber für den Versteigerer freibleibend. Bei gleich hohen Geboten entscheidet die zeitliche Reihenfolge des Gebotseinganges, bei zeitgleichem Eingang das Los. Lose, die „gegen Gebot“ ausgerufen werden, bedingen ein Mindestgebot von 20,- Euro und werden zum Höchstgebot zugeschlagen.

3. An den Versteigerer übermittelte (schriftliche) Gebote werden streng interessiewahrend nur in dem Umfange ausgeschöpft, der notwendig ist, um anderweitig vorliegende Gebote zu überbieten, werden jedoch ohne Gewähr ausgeführt.

4. Telefonische Bieter müssen mindestens den Ausruf bieten und eine schriftliche Bestätigung nachreichen. Im Falle einer Nichterreichbarkeit gilt das Mindestgebot als geboten. Bei Telefongeboten übernimmt der Versteigerer keine Gewähr für das Zustandekommen einer Verbindung.

5. Der Versteigerer erhält vom Käufer ein Aufgeld von 23,8% des Zuschlagspreises sowie 2,- Euro pro Los. Für Lose, die mit • gekennzeichnet sind, wird für den Zuschlagspreis und das Aufgeld die gesetzliche Umsatzsteuer erhoben. Lose ohne Kennzeichnung unterliegen der Differenzbesteuerung nach §25a UStG; es erfolgt kein gesonderter Umsatzsteuerausweis. Bei Losen mit + (Plus) hinter der Losnummer handelt es sich ebenfalls um differenzbesteuerte Lose, jedoch werden zusätzlich die mit dem Import verbundenen Kosten in Höhe von 7% des Zuschlags (= Importspesen, die Bestandteil des Kaufpreises sind) an den Käufer weiterberechnet. Bei Zusendung der Ware werden Porto und Versicherungspauschale zuzüglich gesetzlicher Umsatzsteuer gesondert in Rechnung gestellt. Käufe, die in ein umsatzsteuerliches Drittland ausgeführt werden, sind von der Umsatzsteuer befreit. Steuern/Abgaben für die Einfuhr der Käufe im Zielland gehen zu Lasten des Käufers.

6. Mit dem Zuschlag kommt ein Kaufvertrag zwischen dem Versteigerer und dem Bieter zustande. Er verpflichtet den Käufer zur Abnahme und Bezahlung am Versteigerungsort. Wer für Dritte bietet, haftet selbstschuldnerisch neben diesen. Gleichzeitig geht mit der Zuschlagserteilung die Gefahr für nicht vom Versteigerer zu vertretende Verluste oder Beschädigungen auf den Käufer über. Das Eigentum an der versteigerten Sache wird erst nach vollständigem Zahlungseingang beim Versteigerer auf den Käufer übertragen. Schriftliche Bieter erhalten in aller Regel eine Vorausrechnung, die sofort fällig ist. Erst nach vollständiger Bezahlung der Rechnung besteht ein Anspruch auf Aushändigung der gekauften Lose.

7. Sind Lose vereinbarungsgemäß vom Versteigerer zu versenden, hat der Käufer dem Versteigerer zu Nachforschungszwecken spätestens zehn Wochen nach dem Ende der Auktion (bei Vorkasse: nach der Bezahlung der Ware) schriftlich mitzuteilen, falls die zu versendende Ware nicht oder nicht vollständig zugegangen ist.

8. Alle Beträge, welche 14 Tage nach der Versteigerung bzw. Zustellung der Auktionsrechnung nicht beim Versteigerer eingegangen sind, unterliegen einem Verzugszuschlag von 2%. Dazu werden Zinsen in Höhe von 1% pro Monat erhoben, es sei denn, der Käufer weist nach, dass ein geringerer oder kein Schaden entstanden ist. Im Übrigen kann der Versteigerer wahlweise Erfüllung oder nach Fristsetzung Schadenersatz wegen Nichterfüllung verlangen; der Schadenersatz kann dabei auch so berechnet werden, dass die Lose verkauft oder in einer neuen Auktion nochmals angeboten werden. Der säumige Käufer muss hierbei für den Mindererlös gegenüber der früheren Versteigerung und den damit verbundenen zusätzlichen Kosten einschließlich der Gebühren des Versteigerers aufkommen. Auf einen eventuellen Mehrerlös hat er jedoch keinen Anspruch.

9. Die zur Versteigerung kommenden Lose können vor der Auktion besichtigt und geprüft werden. Sie werden in dem Zustand versteigert, in dem sie sich bei der Auktion befinden. Die nach bestem Wissen und Gewissen vorgenommenen Katalogbeschreibungen sind keine zugesicherten Eigenschaften. Der Käufer kann den Versteigerer nicht wegen Sachmängeln in Anspruch nehmen, sofern dieser seiner obliegenden Sorgfaltspflicht nachgekommen ist. Sammlungen, Posten etc. sind von jeglicher Reklamation ausgeschlossen, ansonsten verpflichtet sich der Versteigerer jedoch, wegen begründeter Mängelrügen, die ihm bis spätestens vier Wochen nach Auktionsschluss angezeigt werden müssen, innerhalb der Verjährungsfrist von einem Jahr seine Gewährleistungsansprüche gegenüber dem Einlieferer geltend zu machen.

Im Rahmen von Reklamationen ist bei der Rücksendung an den Versteigerer die Original-Loskarte beizufügen. Die Lose müssen sich in unverändertem Zustand befinden. Dies betrifft auch das Entfernen von Falzen, das Wässern, sowie chemische Behandlungen. Lediglich das Anbringen von Prüfzeichen der Mitglieder eines anerkannten Prüferverbandes gilt nicht als Veränderung. Der Versteigerer kann verlangen, dass bei Reklamationen ein entsprechender schriftlicher Befund eines zuständigen Verbandprüfers eingeholt wird. Will der Käufer eine Prüfung vornehmen lassen, so ist dies dem Versteigerer vor der Auktion mitzuteilen. Die Reklamationsfrist verlängert sich entsprechend. Dies betrifft jedoch nicht die Verpflichtung zur sofortigen Bezahlung der Lose. Die Kosten einer Prüfung werden dem Käufer in Rechnung gestellt, wenn das Prüfergebnis mit der Losbeschreibung übereinstimmt oder der Käufer das Los trotz abweichendem Prüfungsergebnis erwirbt. Mängel, die bereits aus der Abbildung ersichtlich sind, berechtigen nicht zur Reklamation. Lose, bei denen Fehler beschrieben sind, können nicht wegen eventueller weiterer geringer Fehler zurückgewiesen werden. Im Falle erfolgreicher Inanspruchnahme des Einlieferers erstattet der Versteigerer den gezahlten Kaufpreis einschließlich Aufgeld zurück; ein darüber hinausgehender Anspruch ist ausgeschlossen. Der Versteigerer ist berechtigt, den Käufer mit allen Reklamationen an den Einlieferer zu verweisen. Durch die Abgabe eines Gebotes auf bereits von anerkannten Prüfern signierte oder attestierte Lose werden die vorliegenden Prüfzeichen oder Atteste als maßgeblich anerkannt. Werden Lose unter dem Vorbehalt der Gutachten anderer Prüfer geboten, so ist dies dem Versteigerer mit dem Gebot anzuzeigen.

Bezeichnungen wie „Pracht“, „Kabinett“, „Luxus“ etc. stellen die subjektive Einstellung des Versteigerers und in keinem Falle eine Beschaffenheitsangabe im kaufrechtlichen Sinne dar. Lose, die mit „feinst“ oder „fein“ beschrieben sind, können Fehler aufweisen. Stücke, deren Wert durch den Stempel bestimmt wird, können wegen anderer Qualitätsmängel nicht beanstandet werden.

10. Ansichtssendungen sind nur von Einzellosen möglich. Postfrische Marken sind von der Versendung ausgeschlossen. Die Lose sind innerhalb von 24 Stunden zurückzusenden, wobei die von uns gewählte Versendungsart anzuwenden ist. Gefahr und Kosten gehen zu vollen Lasten des Anforderers. Sollten die Lose am Auktionstag nicht vorliegen, so werden sie eine Steigerungsstufe über dem nächsthöheren Gebot, mindestens jedoch zum Ausruf, dem Anforderer zugeschlagen.

11. Erfüllungsort ist Bietigheim-Bissingen. Das gilt auch, wenn wir die Ware ausnahmsweise an einem anderen Ort übergeben oder von einem anderen Ort aus versenden. Gerichtsstand für den vollkaufmännischen Verkehr ist Ludwigsburg. Es gilt ausschließlich deutsches Recht. Kommen Kaufverträge durch Versteigerung in einem Land außerhalb der Bundesrepublik Deutschland zustande, findet bei Verbrauchern deutsches Recht nur Anwendung, soweit hierdurch der durch zwingende Bestimmungen des Rechts des Staats des gewöhnlichen Aufenthalts des Verbrauchers gewährte Schutz nicht entzogen wird (Günstigkeitsprinzip).

12. Sollten eine oder mehrere der vorstehenden Bedingungen ganz oder teilweise unwirksam sein oder werden, berührt dies nicht die Gültigkeit der übrigen Bedingungen. Es soll dann das gelten, was dem ursprünglich wirtschaftlich verfolgten Zweck entspricht oder ihm am nächsten kommt.

13. Vorstehende Bestimmungen gelten sinngemäß auch für den Nachverkauf und den freihändigen Verkauf.

GENERAL AUCTION CONDITIONS

By the submission of bids the following General Auctions Conditions of the Auctioneer are recognized and accepted.

These Auction Conditions shall apply, unless binding law at the location of the auction stipulates divergent provisions.

1. The auction is voluntary and held in public in the name of the auctioneer on his own behalf for his own account against immediate payment in Euro. Foreign currency and cheques are accepted at the daily exchange rate of the German Federal Reserve. Trading and exchange are not allowed in the auction rooms.

2. Bidding increments are published in the actual Auction Manual and are from 5 to 10% of the starting price or the actual submitted bid price respectively. The lot is sold to the highest bidder after threefold call. The Auctioneer reserves the right to bar persons from the auction at his sole discretion, to refuse knocking a lot down or to withdraw, pool, recombine or divide lots, to call lots once more in case of equivocality or misunderstandings or to knock a lot down subject to consignor's approval. Bids below the starting price with a knockdown subject to consignor's approval are binding for the bidder for a period of four weeks but are non-binding for the auctioneer. In case of even bids the chronological order of their receipt is applicable; in case of simultaneous receipt of even bids the auctioneer decides by drawing lots.

3. Bids transmitted to the auctioneer (in written form) will be treated with confidence and will only be used to top the other previous bid. However the auctioneer cannot take responsibility for this procedure. Lots without a particular starting price require a minimum bid of 20,- Euro and will be knocked down to the highest bid.

4. Telephone bidders must offer at least the starting price and submit a written confirmation thereafter. In the event of unavailability of the bidder on the phone the minimum bidding price is valid. The auctioneer is not responsible for the setting up and/or persistence of the telephone connection.

5. The auctioneer receives a premium of 23.8% of the hammer price from the buyer plus 2.00 Euro per purchased lot. For all lots which are marked with • behind the lot number Value Added Tax (VAT) will be added to the hammer price and to the buyers premium. Lots without marking are sold under the margin system (§25a UStG); there will be no turnover tax statement. Lots marked with + are sold under the margin system as well but additional expenses for importing the items in the amount of 7% of the hammer price are charged (= Import Expenses, which are part of the total sales price). If shipment is requested by the buyer or becomes necessary, costs for postage, packing and insurance plus VAT will be charged separately. For purchases from abroad, which will be exported to a third country (non-EU), VAT will not be invoiced after receiving an evidence of exportation. Duty and/or other charges related to importing the purchases into the country of destination are on buyer's account.

6. The purchase contract between the auctioneer and the buyer is closed on the knockdown of the lot. Based on this contract the buyer is obliged to accept and pay for the goods at the point of sale. In case of bidding for a third party, the bidder is liable as a principal as well as the third party. At the moment of knockdown all risks concerning loss or damage of a purchased lot is the responsibility of the buyer. The ownership of the auctioned goods will only be transferred to the buyer when full payment has been effected. Bidders making written bids will in general receive a prepayment invoice, which is due for immediate payment. Only if the invoice has fully been paid, the buyer has the right to claim ownership of the purchased lots.

7. If it is agreed, that the auctioneer will ship the purchased lots, and they are not or not completely received within ten weeks after the end of the auction (in case of prepayment: after the payment of the goods) latest, the buyer has to inform the auctioneer in writing about this incident for purposes of investigation.

8. Outstanding debts, which have not been paid 14 days latest after the auction and/or receipt of the invoice, will be subject to a default charge of 2%. Furthermore 1% interest per month will be charged unless the buyer can provide evidence that only a lower or no damage has been caused. Furthermore it is in the auctioneer's sole discretion whether he insists on performance or on compensation due to non-fulfillment after a set period. Compensation will be calculated after the lots have been sold directly or on another auction to a third party. In this case the defaulter has to compensate the loss of the auctioneer resulting from a lower sales price and additional costs. The defaulter is not entitled to additional proceeds earned by the auctioneer when selling the lots to a third party.

9. The objects for auction may be viewed and inspected prior to the auction. They will be auctioned in the condition as they are at the time of auction. The catalogue descriptions were made in all conscience and do not warrant any characteristics. The buyer cannot hold the auctioneer liable for any faults provided that the auctioneer has not infringed his duty to take care. Collections, batches etc. are excluded from any complaint, apart from that the auctioneer is obliged to hold the consignor liable for any complaint, which is made by the buyer within a period of 4 weeks after the auction, within a limitation period of one year. Complaints concerning a lot must be sent to the auctioneer together with the original auction lot card. The lot must be presented in its unchanged condition. This applies to the removal of hinges, submersion in water as well as chemical treatment. Only the application of sign information by a member of an acknowledged auditor association will not be regarded as tampering. In the event of complaints the auctioneer can demand a written expertise of an acknowledged auditor. If the buyer intends to get an expertise, he will inform the auctioneer about it prior to the auction. The period for complaint will be prolonged respectively. However, this does not inflict the right of the auctioneer to be timely paid. Any appraisal fees will be charged to the buyer, if the result matches the lot description or if he acquires the lot in spite of dissent opinion. Any faults, which are obvious at the time of photography, are excluded from the right of complaint. If faults of a lot are described in the auction catalogue, this lot will not be rejected and returned by the buyer because of further smaller faults. In the event of a successful claiming of the consignor the auctioneer refunds the paid purchase price and buyer's premium; the buyer is not entitled to further claims. The auctioneer has the right to refer the buyer with all of his complaints to the consignor.

By bidding on lots, which were already signed or certified by acknowledged auditors, the buyer accepts these approval marks or certificates as decisive. If bids are placed with reservation of an appraisal of another auditor, the bidder will inform the auctioneer about this reservation when placing his bid. Descriptions such as „Pracht“, „Kabinett“, „Luxus“ etc. are a subjective opinion of the auctioneer and under no circumstance a statement in regard to warranted characteristics. Lots which bear the description „feinst“ or „fein“ may possibly have small faults. Objects having a value which is defined by their postmark are excluded from complaint of any other defects.

10. Only single lots can be shipped for viewing. They must be returned to the auctioneer within 24 hours, in doing so our mode of dispatch must be utilized. Any risks and costs are for the account of the requesting party. If these lots are not present in the auction house on the day of the auction, they will be knocked down in favour of the requesting party one increment above the highest bidding price but at least for the starting price.

11. Place of fulfilment is Bietigheim-Bissingen. This will also apply, if by way of exception we hand the goods over at another location or if we send the goods from another location. Place of jurisdiction for the full trading is Ludwigsburg. Only German law shall apply. If purchase contracts are closed by auction in a country outside Germany, for consumers German law shall only apply, as far as hereby the granted protection of the law of the state, in which the consumer has his main residence, is not withdrawn (favourability principle).

12. Should one or more of the conditions above or a part of them become invalid, the validity of the other conditions will remain unchanged. The invalid conditions shall be replaced by valid conditions, which conform to their economic purpose.

13. The conditions above shall also apply to after sale and private treaty.
