HEADING WEST!

Exactly 50 years ago, on May 12, 1966, the Queen Mary, a Royal Mail ship, left the ports of Southampton and Cherbourg. She was westward bound, heading for New York City, with countless guests on board on their way to the Sixth International Philatelic Exhibition (SIPEX) in Washington D.C.

Many famous European philatelists was on board, among them Dr Ferdinand Wallner, Giulio Bolaffi, Sir John Wilson (Curator of the Royal Philatelic Collection) and Ronald Lee, to name but a few. These names might still ring a bell with younger philatelists, too.

This was no ordinary trip, however: After all, the doyens of the trade, Robson Lowe – in the company of his daughter Annabelle – Anke Slottke and Adriano Landini held the “First Trans-Atlantic International Philatelic Radio Auction” on board the Queen Mary on 16th May. It did not go quite as smoothly as hoped, as the phone connections to London and NY were cut off several times. All in all, this auction was a great success, though, and brilliant advertisement for philately as a whole.

50 years on, Christoph Gärtner Auction House team will make their way to the World Stamp Show New York 2016 as one of the official auctioneers – albeit on a plane.

There will be no auctions above the clouds, but as early as on May 30, first-class stamps and postal history will be auctioned off at the Javits Center. The team will be bringing with them the finest of philately, presented in two auction catalogues and as always online at: www.auktionen-gaertner.de.

Looking forward to seeing you in New York!

Explanation to pictures and lot descriptions

Given that in our print-and online-catalogues lot-numbers have differences between the image and lot description (e.g. starting prices are different or the picture does not fit with the corresponding description), the data of the lot description has to be regarded as valid.

The catalogue value stated in EURO (€) is based, unless otherwise stated, on the actual MICHEL catalogue at the time of our catalogue compilation. In some cases, specialised foreign catalogues may also be quoted.

Collection lots are “sold as seen”. The lot descriptions are made in the best will and conscience and do not guarantee any characteristics. Collections lots are excluded from complaints.

Abbrications at the lot description

At the lot numbers in the lot description we use following abbreviations:

P = PRINT / these lots are pictured in the catalogue
W = WEB / you will find pictures of these collections online on: www.auktionen-gaertner.de

The different letters you will find in brackets after the description are indicating the size and packing of the lot:
A = binder
K = big box
M = folder
S = box
T = envelope

Abbrications at the pictures

At lot numbers below the pictures we use following abbreviation:

ex. = EXEMPLARILY / these lots are not completely pictured, you will find more pictures online

SPECIAL NOTES

FOR LOTS OF THIS CATALOGUES

If you pick up your bought lots at our booth or if we shall sent these lots within the State of New York we have to collect the sales tax from you unless one of the legal exceptions applies. (like dealers with american Sales Tax Number)

**IMPORTANT INFORMATION – FOR EC CUSTOMERS MAINLY**

Since January 1st, 2014 the German VAT for collectibles like stamps and coins was increased from 7% to 19%. Therefore, we now offer the majority of our lots under margin system. No tax at all will be charged on top neither on the hammer price nor on the buyer’s premium for these lots and the Christoph Gärtner Auction Company pays and transfers the VAT. Starting with the 29th auction we now can offer many lots under margin system for which we previously had to charge 19 % VAT. These are lots which have been imported into the EC. The costs of the import amount 7 % of the hammer price which we have to charge you (= import expenses, part of the buying price). The import expenses are also invoiced if the lots will be exported. All lots of this kind are marked by a plus after the lot number (ie 4839 +). Lots marked in the catalogue by a point after the lot number (ie 3412 ●) are charged under normal VAT rate of 19 % if the lot is not exported (not charged when exported).

For all lots without any mark (● or +) only hammer price and buyer's premium will be charged - no VAT or import expenses will be added!

By implementation of the margin system purchasing of relevant lots will be 5% cheaper now for EC buyers.

Lots purchased in order to be carried out to Non-EC-Countries are ex-empted from taxation as before.
The auction sale for the following lots starts at 10 am in room 1E03 Javits Center, New York City.

Auslandsbriefe waren zur damaligen Zeit eine teure Angelegenheit. Das zu zahlende Entgelt war nicht nur vom Gewicht des Briefes sondern auch vom gewählten Postweg abhängig, so dass das zu zahlende Entgelt häufig vom Empfänger zu tragen war.

Diese seltene Mehrfachfrankatur mit Kreuzermarken gehört zur bekannten Kromer-Korrespondenz.
1862 – 3 Kreuzer rosa geschnitten statt gezähnt ("Stockach-Provisorium")

Anzahl von ungezähnt gebliebenen Bogen der 3 Kreuzer-Marke an den Postschalter in Stockach, wo
sie vermutlich im Dezember 1858 bis Januar 1859 verkauft wurden, wie die Stempeldaten zwischen
Von diesen Provisorien sind Misch-/Buntfrankaturen die seltensten, und nur noch ein weiteres Brief-
stück sowie eine Vorderseite mit einer Buntfrankatur des Stockach-Provisoriums sind bekannt.

1813 Pre-Philatelic Letter from Heligoland to England during the Napoleonic War’s Continental Blockade. Pre-stamp folded lettersheet written December 12th 1813 on Heligoland (as stated in the letter) then sent by Packet Ship to be routed via London where it received the arrival marking “FOREIGN DE 23 1813” then departed for Hull, Yorkshire the same day receiving the transit date marking “B DE 23 1813”. A Major Heligoland Rarity.

The correspondence between Heligoland Merchant William Graham and his supplier George Malcolm of Hull, England represents the very beginning of Heligoland Postal History. Along with the early British Arrival & Transit postal markings, there is the hand scripted “5” on the front of the letter representing the Postage Fee charged for mailing the letter using the services of a Packet Ship. [The Packet Rate for Heligoland to London was 158d, then the 231 miles from London to Hull would be rated at 10d for a total of 256d. Thus the “5” indicates that this was a Double Rated Letter.] Though the outside of the letter shows the usual signs of wear for an item of this age, including some paper loss (a common occurrence when opening letters with wax seals) the interior of the letter is clean and the text is complete and unaffected. A month later on January 14th 1814, Britain was awarded Heligoland at the Treaty of Kiel. The Continental Blockade ended 11 April 1814. Royal Philatelic Society London Certificate.

1860: The most important item in Heligoland Philately to be offered in over Half-a-Century. 

Stampless pre-philatelic cover from Heligoland to Melbourne (Australia). Cancelled with a "HELIGOLAND DE 4 1860" ERS Type I and shipped to Hamburg where it received a “St.P.A. 7 Dec. 60” arrival marking as seen on the back; then on the same day it received a “HAMBURG 7 DEC 1860” Butterfly postmark and was sent to London where it received the transit postmark “LONDON HR DE 10 60 PAID” in red. From London it traveled to Australia, completing it’s journey on February 15, 1861 as shown by the “Melbourne C FE’15 61” arrival marking in red ink on the reverse. Provenance: ex Kapitän Sachse Collection. BPP Certificate: Estelmann Rarely is a “New Item” offered that rewrites Postal History, this exceptional Cover does exactly that. It is generally believed by Serious Collectors and Experts alike, that the HELIGOLAND ERS came into existence on July 1st 1866 when the British Administration took over control of the Island’s Post Office. This Cover clearly challenges that belief.

Only two examples of Pre-1866 ERS usage are known. Both are on Covers from the Kapitan Sachse Collection. Both are addressed to the same person in Australia and both were last offered in the 1952 Mohrmann 73 Auction and never seen again! The rediscovery of this “absolute Rarity” after 64 years of silence, accompanied by it’s BPP Certificate, opens a “New Chapter” in Heligoland Philately.

The Empire-stamp used in the Caroline should be taken from the stamps held by the Navy Ship post of German Cruiser Squadron SMS "Scharnhorst" and "Nuremberg". The use is to be regarded as a demand-related emergency measure. The visit of the two ships left the existing stocks of 5 and 10 Pfg stamps quickly come to an end, which is why first the 5 Pfg Germania stamps of board stocks where spent. There are only 2 pieces known, of which the piece offered here is by far the most beautiful piece. Registered by Friedemann on page 632 under "A2". Great rarity of the German colonies! Certificate and double signed. Bothe/BPP; offered and sold at Kruschel in October 1990 for 15,000 - DM. Provenance Paul Kramer.

Many further documents of historical importance were gathered here from a French lover during decades and drawn up in 3 luxury albums and a box with background information, illustrations of the personalities and collectibles as complete seals. He insisted on the quality and authenticity of the letters and let them therefore examine by famous experts (in Paris). Great Britain, 1852 (14 May), entire letter from his parents at West Boldon “By West India Mail May 14 1852” to Capt. Collinson on H.M.S. Enterprise “Artic (sic) Expedition Sandwich Islands Pacific”, bearing 1841 1d. red-brown horizontal pair and 1847-54 embossed 10d. brown lightly cancelled and showing, on reverse, circular-undated “WEST BOLDON”, Manchester (14.5) and London (15.5) c.d.s.; the contents include reference to the Duke of Northumberland writing to the Admiralty urging them to search for Investigator and Enterprise at Melville Island “as well as Franklin & Co. in Wellington Channel, other comments on parliament and much family news; the deshives with a few small faults though a remarkable letter to this ill-fated expedition. Notes: This expedition of two naval vessels, the “Enterprise” under Capt. Richard Collinson, and the “Investigator” under Commander Robert McClure, was sent to search for Sir John Franklin from the Pacific end of the North West Passage, after Lady Jane Franklin pressed for a search for Sir John, missing since 1847. The two ships crossed the Atlantic and Pacific Oceans though became separated and missed their rendezvous at Hawaii. After entering the Beaufort Sea some way behind McClure Collinson retraced his steps and wintered at Hong Kong. The next season Collinson sailed as far as Prince of Wales Strait where he found evidence that McClure had wintered there though due to ice blocking the northern exit of the Strait he was forced to turn south where he wintered at Walker Bay, Victoria Island. A party set out on foot to leave a message at Winter Harbour on Victoria Island and just missed meeting up with McClure’s men. The next year Collinson sailed east round the south coast of Victoria Island and wintered at Cambridge Bay. Parties explored the mainland and came within thirty miles of the route taken by Franklin’s men on the other side of the strait on King William Island. “Enterprise” spent a third winter at Camden Bay and returned home via the Bering Strait and the Cape of Good Hope, arriving back in England in May 1855 McClure and his crew spent three years locked in pack ice aboard the “Investigator” before abandoning it and making their escape across the ice. Rescued by H.M.S. “Resolute”, which was itself later lost to the ice, McClure returned to England in 1854, where he was knighted and rewarded for completing the passage. Franklin was never found.

General Auction Conditions

By the submission of bids, the following Auction Conditions of the Auctioneer are recognised and accepted:

1. The auction is held public in the name of the auctioneer on his behalf for his own invoice against immediate payment in Euro.
2. The lot goes to the highest bidder. The Auctioneer reserves the right to refuse knock down a lot, or to withdraw, recombine and divide lots. Bidding increments can be seen in the actual auction manual and are from 5 to 10% and according to the present submitted bid and dependent on the situation.
3. The Auctioneer has the authority to knock down lots pending the permission of the seller. The bidder is bound by his bid for a period of 4 weeks beginning on the day of the knockdown. It is allowed to hammer an under reserve lot to another limit bidder.
4. The Auctioneer has the right to exclude persons from the auction without giving any reason. Trading and exchange are not allowed in the Auction rooms.
5. The knockdown is allocated to the highest bidder after the third call. The Auctioneer has the right to refuse a knockdown for founded reasons or to make knockdown under reserve. When a bid is refused, the previous bid is valid. When more than one bidder has submitted the highest bid, the decision will be made by drawing. In the case of written bids, the order of receipt of bids is valid. These bids will be treated with confidence and will only be used to top the previous bid. Telephone bidders must offer at least the limit price and a written confirmation must be submitted thereafter. In the event of non-reachability, the minimum bid is valid.
6. The Auctioneer receives a premium of 22% of the hammer price from the buyer plus 2,- € per purchased lot. For lots marked with + additional expenses for importing the items are charged (= Import Expenses, 7 % of the hammer price). For all lots which are marked with • Value Added Tax will be added to the hammer price and to the buyers premium, lots marked by Δ are free of taxes (§25c UStG). All other lots are sold under the margin system (§25a UStG). For sending the goods costs for postage, packing and insurance plus VAT will be charged separately. For purchases from abroad, which will be exported to a third country (non-EU!), the Value Added Tax will not be invoiced after receiving an evidence of exportation; import taxes on buyer’s account.
7. The Purchase Order contract between the Auctioneer and the Buyer becomes valid with the knockdown. With this contract, the buyer is obliged to accept and pay for the goods at the point of sale. In the case of bidding for a third party, both buyer and third party are liable. The moment of knockdown, all risks concerning losses or damage are the responsibility of the buyer. The ownership of the auctioned goods will only be transferred to the buyer when full payment has been effected. Bidders making written bids will in general receive a pre-payment invoice that is due for immediate payment. Only when the invoice has been paid fully, has the buyer the right to demand possession of the auctioned goods.

If it is agreed to ship the purchased lots, the purchaser is obliged to inform the auctioneer in writing for reasons of investigation within ten weeks after the end of the auction (in case of prepayment: after the payment of the goods) if the goods to be shipped are not or incompletely received.

8. All invoices that have not been paid at the latest 14 days after the auction and/or receipt of the invoice will be subject to interest of 3%. Furthermore, 1,5% interest per month will be charged, unless the buyer can prove that only minimal or no damage has been caused. Furthermore, the Auctioneer can decide whether after a set period, compensation will be charged, due to non-fulfilment. The damages can be regulated in such a manner that the lots are taken into a future auction and the debtor is charged the difference between the knockdown bid and the previous bid as well as all the costs connected with this transaction, including the additional costs and charges of the Auctioneer. There is no demand for higher realizations.

9. The objects for auction may be viewed and inspected prior to the auction. These objects will be auctioned in the condition they are in at the time of auction. The catalogue descriptions were made in the best will and conscience and do not guarantee any characteristics. However, this does not mean exclusion of prompt payment for the lots. Any expertising fees will be charged to the buyer if the result matches the lot description or if he acquires the lot in spite of dissent opinion. Nach Zuschlag eines Loses werden wir Sie für die Versandformalitäten anschreiben. Dies ist auf Grund der gesetzlichen EU-Versandhandelsregelung notwendig.

IMPORTANT NOTE FOR OUR EU-CUSTOMERS:
After knocking down and acceptance of your bid, we will contact you for the special shipping formalities. This is necessary because of EU legal regulations for distance sales.

NOTE IMPORTANTE POUR NOS CLIENTS PRIVÉS EUROPÉENS:
